EXCELLENT SHOWING AT OPENING MEETING.

Mayor Welcomes the Delegates to Oakland—Papers Read at the Session Today.

Nearly seventy millions of dollars capital, or to be more exact, $69,319,153, was represented in the convention of the California Bankers' Association, the twelfth of its kind held, which assembled in the "Chirps" room of the Athenian Club in this city this morning.

Two hundred and sixty-three banks of all descriptions, National, State, savings and private, with a sprinkling of trust organizations, were represented either directly or indirectly in the gathering. Such a representation of money was never before witnessed in this city.

EXCELLENT SHOWING.

It speaks for the standing of the Association in question, as an exponent of the banking profession in this State, although only little more than half the banks of this State are as yet affiliated with the organization.

It shows that the greater part of the larger and more influential banks of California, are allied to the Bankers' Association, because of the comparatively small difference between the capitalization of the Association banks and that of all the banks of the State, which latter amounts to $85,398,679.

These figures are supplied to THE TRIBUNE by the American Bank Reporter, and represent the capitalization of all California banks up to January of this year.

BANKS AND DEPOSITS.

The same publication shows that the total number of banks in this State is 502, distributed among classes as follows: Banks and trust companies, 268; private banks, 40; savings banks, 104; National banks, 90.

The deposits in these banks at the close of the report in question was $455,347,000, although there is no doubt that that sum has been greatly increased even in the few months which have since intervened.

THE CONVENTION.

The convention opened at 10:20 and closed at 12:10, for the noon recess. At that time it had listened to an address of welcome by Mayor Mott; a reply by H. S. Fletcher, of the Bank of Watsonville; the address of President A. H. R. Schmidt, of the German Savings & Loan Society of San Francisco; the report of the Executive Council, by J. F. Moulton, cashier of the Bank of California of San Francisco; reports by Secretary R. M. Welch, of the Savings Union of San Francisco; the report of the delegation to the convention of the National Bankers' Association; J. D. Radford, of the First National Bank of San Jose; an address by D. Edward Collins, of the California Bank of this city on "Banking," and another on "Stability in Banking," by George W. Peltier, of the California State Bank, Sacramento. Committees were then appointed, and an adjournment was taken till 3 p. m., lunch being supplied in the convention room.

The room had been prepared for the convention in a manner which was pleasing to the senses, and produced a favorable effect from the outset, suggesting rather an outing for recreation than an assemblage for the purpose of considering facts of business and finance.

FLAGS, FLOWERS AND PALMS.

Around the walls and extending up to the cornice, were gracefully draped, ribbed American flags, the upper ridge being emphasized with a fringe of fresh and beautiful smilax and ferns. The chandeliers were hung with waving ferns and swaying vines.

The curtain of the stage had been raised, disclosing a beautiful scenic landscape. Tall, majestic palms were trained along the sides of the proscenium arch, and the front of the stage was outlined with a hedge of smilax, and a great variety of flowers, the odor of which pervaded the apartment.

ATTENDANCE.

The attendance was large enough to afford gratification to the officers of the Assocation. A list of the delegates was published in THE TRIBUNE yesterday.

WHITE PLAGUE

New York Leads in Matter of Treatment of Tuberculosis.

WASHINGTON, May 18.—In spite of its frivolity, in spite of its size in spite of its other things which I hesitate to allude to, New York has set the pace in legislation, institutions, and treatment of tuberculosis.

Dr. William Ossler made this statement today in an address following that of Dr. Edward L. Trubgue, in addressing the first annual meeting of the Association for the Study and Prevention of Tuberculosis.

Dr. Ossler said that education regarding tuberculosis was the thing to strive for. He discussed this feature under three heads: Education of the public, of the physician and the patient. The public, he said, was awake, but sitting on the edge of the bed and not yet dressed. In this awakening, however, he asserted much had been accomplished over past conditions. When the public got dressed he predicted that much activity would follow and much would be accomplished toward stamping out tuberculosis.

Many physicians from all sections of the country are in attendance and a number of members of State boards of health who have just concluded their annual conference are present. The subject of tuberculosis will be discussed in all of its phases for two days.

STORK VISITS THE WILLIAMS HOME

SAN FRANCISCO, May 18.—The stork left a little girl at the home of Thomas H. Williams, president of the California Jockey Club, Monday morning.

EDITOR DIES.

PHILADELPHIA, May 18.—Dr. Frederick W. Speirs, editor of the Book Lovers' Magazine, is dead at his home in Lansdowne, a suburb of this city, after a short illness. Dr. Speirs was educational director of the Book Lovers' Library and organized the Book Lovers' Library in England. He was well known as a university extension lecturer. Dr. Speirs was 37 years old.

NOT READY TO FIGHT

Russian Fleet Has Now Been Definitely Located.

SINGAPORE, May 18.—The Russian fleet was in latitude 12.30 north and longitude 11.30 east (about 120 miles northeast of Cape Varella, coast of Annam) during the morning of May 16, according to a report brought here by the British steamer Hongwan I. The German steamer Seagovia sighted forty-two Russian ships forty miles from Cape Varella, May 15, steaming slowly north.

The latitude and longitude in which the Russian fleet was reported by the British steamer Hongwan I. does not indicate that a naval battle is imminent. The Russians were on May 16 only about 150 miles from the coast of Annam and apparently heading north for the waters of the island of Hainan.

HONGKONG, May 18.—A special correspondent who recently proceeded from here to Kwang Chau Bay observed at 11 o'clock at night May 16 one hundred and fifty deeply laden junks presumably loaded with provisions for the Russian fleet, anchored southwest of and twenty miles off Cape St. John. The junks exhibited signal lights which were extinguished on the steamer's approach to Kwang Chau Bay.

WILL NOT RETIRE.

ST. PETERSBURG, May 18.—The fears expressed here yesterday that owing to the reported nervous breakdown of Vice-Admiral Rojestvensky, the Russian fleet in the Far East would lose its present commander-in-chief turn out to be unfounded.

Captain Zilotti, the aide-de-camp of Minister of Marine Avellan to-day authorized the statement that Rojestvensky has not applied to be relieved from duty.

However, the condition of the Russian Admiral's health continues to be a source of anxiety. It is confirmed that the report that he had applied to be relieved may have arisen out of the virtual decision in view of the condition of Rojestvensky's health, to send Vice-Admiral Birileff to Vladivostok, where in the event of Rojestvensky's success in the coming battle Birileff will take over the supreme command of the Russian naval forces in the Far East and occupy a post similar to that of the late Admiral Makaroff at Port Arthur and of Vice-Admiral Skrydloff at Vladivostok.

Emperor Nicholas today summoned Admiral Birileff to Tsarskoe-Selo.

EXCHANGE VISITS.

PARIS, May 18.—Visits have been exchanged by President Loubet and the Japanese Prince and Princess Arisugawa, who are journeying to Berlin to attend the wedding of the German Crown Prince and the Duchess Cecilia of Mecklenburg-Schwerin. The interviews were extremely cordial.

PEACE IS FAR AWAY

President Shea is Not Willing to Arbitrate Strike Issue.

CHICAGO, May 18.—President Shea of the Teamsters' International Union threw cold water today on all peace movements. He declared that he had not considered arbitration in any form between the Team Owners' Association and the Teamsters' Union, and that he had never agreed to arbitrate the question whether the teamsters should deliver to the boycotted houses.

The declaration of Shea came as a surprise to all concerned, as it was explicitly stated last night and today that Shea had made such an agreement. At the time of Shea's statement the team owners were in conference, selecting their member of the arbitration board.

WILL NOT ARBITRATE.

"I am not going to arbitrate the question of how they shall conduct their business," said President Shea. "There will be no backdown or settlement. When I am beaten I shall come out and say so."

This declaration on the part of Shea threw the whole peace move up in the air. Members of the Team Owners' Association started out at once to find Shea and get some idea of how and where they stood. How the report got started that he had agreed to arbitration was not explained by Shea, but he denied that he had ever made such an agreement. Declaring no such proposition as the alleged arbitration of the boycott question had been considered by the teamsters, President Shea called the story a subterfuge by the team owners to pacify the Employers' Association.

WHAT GOMPERS SAYS.

Like Mr. Shea, President Gompers of the American Federation of Labor professed today to be surprised to read in the papers that the teamsters had agreed to arbitrate the team owners' proposition. He said:

"I have made no proposition to arbitrate this strike. I would not if I could, and I could not if I would. All I can do is to pave the way, if it is possible, for peaceful settlement. But the matter of settlement must be taken up by the officers of the two respective organizations—the Employers' Association and the teamsters. Any statement that has been published that I have proposed arbitration or attempted to effect a settlement is untrue. I have no authority to take such a course. The best I can do is to work for peace and try to bring the two opposing parties together. If I can find a plan by which they can meet, then they must pass their own judgment on whether that plan is right or not. That is the limit of my power here. I wish to make that very plain. I have not attempted to interfere with the legal or official right of either the employers or the unions involved in this fight. I think I have been misrepresented as to that. This statement from me is final. I am merely here endeavoring to find a way to bring about peace, and then to submit that plan to the two organizations. I expect to meet Attorney Levy Mayer of the Employers' Association some time today. The hour and place I do not know, but I am to hear from him as to that."

Mr. Gompers said he would leave tonight for Dayton, O., where some labor matters demand his attention, and that he will return to Chicago either Saturday night or Sunday. He expects to meet representatives of all the Chicago labor organizations Sunday and review the labor situation.

WOULD BE CRAZY.

Later President Shea said:

"We would be crazy to accept any such scheme as proposed. We are not through fighting yet."

"Can Mr. Gompers and Mr. Levy Mayer settle the strike?" Mr. Shea was asked.

"Mr. Gompers may bring us a proposition from the employers," was the reply. "If he does we will consider it, just as we are always ready to do. Of course, any settlement would hinge on how many men could be reinstated."

"Does that mean that all strikers must be reinstated?"

"I have never said so," replied Shea. "The joint council will have to act on anything that is done."

TRANSPORT HERE FROM MANILA

SAN FRANCISCO, May 18.—The transport Logan arrived from Manila and Nagasaki today, bringing home the Thirteenth Cavalry after two years' service in the Philippines.

On board were two brigadier generals, W. S. McCaskey, who has been in charge of the post of Manila, and goes to Denver to take command of the department of Colorado. General F. V. Robinson had been lieutenant colonel of the Thirteenth and was recently promoted and retired.

The headquarters and second squadron of the Thirteenth go to Fort Meyer, the first squadron going to Fort Riley.

Just after leaving Nagasaki Eugene Ward, a member of the steward's department, was found dead in his berth. There were indications of chloral poisoning and it is thought the unfortunate man took an overdose of the drug through mistake or with suicidal intent. He had been under the doctor's care for some time.

In all there were 900 soldiers, rank and file, on board.

LOOKS TO THE POLICE LIKE MURDER.

Mrs. Elizabeth Newell is Found Dead Under Peculiar Circumstances.

SAN FRANCISCO, MAY 18.—THE POLICE ARE MAKING AN INVESTIGATION INTO THE DEATH OF MRS. ELIZABETH NEWELL, A HOUSEWIFE, WHO WAS FOUND DEAD AT HER HOME TODAY.

SHE HAD BEEN ASPHYXIATED BY ILLUMINATING GAS.

HER HUSBAND, WHO REPORTED THE CASE, SAID HE WENT TO THE OCEAN BEACH YESTERDAY AFTERNOON, FELL ASLEEP ON THE SANDS AND DID NOT AWAKEN UNTIL THE LAST STREET CAR HAD RETURNED TO THE CITY.

HE THEN CONCLUDED TO REMAIN ON THE BEACH UNTIL MORNING.

HE COULD NOT FURNISH A MOTIVE FOR HIS WIFE TAKING HER OWN LIFE.

THE ROOM IN WHICH THE BODY WAS FOUND WAS SEALED TO PREVENT THE ESCAPE OF THE ILLUMINATING GAS.

HE WAS NOT DUNHAM

SAN DIEGO, May 18.—The efforts made by peace officers and special correspondents to establish an identity between Robinson, who killed four people, shot another and committed suicide here last Monday, and Dunham, the notorious Santa Clara murderer, has failed completely.

Several people who had known Dunham called at the undertaking room and positively declared that Robinson was not the man.

They had known Dunham before he went to San Jose and knew things about him that could make them positive in their assertions.

breast a ribbon with two leaves, the fastening on the coat being done by a pin specially designed and prepared for the occasion. This consisted of a pin about the dimensions of a silver twenty-five-cent piece, the center of which was a chased design of Oakland smybolized by a beautiful young woman surrounded with flowers, and taking a view of the parting sunset through Golden Gate. This was surrounded with a circle of blue enamel, on which were embossed the words: "California Bankers' Association, Oakland, 1905." These golden ribbons bore the word "Delegate." A similar pin with a purple ribbon, indicated the Reception Committee, comprising Edson F. Adams, of the Farmer's and Merchants' Bank, chairman; W. G. Palmanteer, Central Bank; L. G. Burpee, First National Bank; D. Edward Collins, First National Bank; H. C. Capwell, Security Bank and Trust Co.; Charles T. Rodolph, Union Savings Bank, and George S. Meredith, secretary.

GOOD WORK OF COMMITTEE.

It may be stated that the unremitting work of this committee was shown to good effect in the systematic manner in which the meeting today was inaugurated. There was nothing overlooked, and as a consequent, everything moved with an ease and grace which was gratifying in the extreme. Stenographers and telegraphers were supplied in the ante-room for the accommodation of delegates.

LADIES PRESENT.

The pleasure nor the picturesqueness of the scene lost nothing in that in it appeared a number of ladies, who were interest in the proceedings.

MAYOR MOTT'S WELCOME.

The convention was called to order by A. H. R. Schmidt of the German Savings and Loan Society of San Francisco, who introduced Mayor Mott, who was received with cheers.

MAYOR MOTT.

Mayor Frank K. Mott welcomed the bankers in the following address:

"Mr. President and Gentlemen of the California Bankers' Association: As Mayor of Oakland I have been called to the pleasant duty of welcoming to our city this Association of the bankers of California. In bidding you a hearty and sincere greeting, I do so not only as the official representative of the municipality, but as a citizen of Oakland, who feels sensibly the honor you have done us by selecting our city as the place of meeting in your important convention.

"As our guests we open the gateways wide and invite you to enjoy to the full the best that we can set for your entertainment and edification. We want you to be at home with us, and we assure you that our effort shall be to testify our appreciation of your being among us to the fullest of our ability.

BANKING INTERESTS.

"The banking interests of California need no praise from me. The world knows that our financial institutions are builded upon strong and stable foundations. The bankers of California here represented in this large and splendid organization need no encomium at my hands. As bankers you hold the trusteeship of the wealth of the people. You are guardians of millions of dollars. Your positions in the community place you in a most responsible and confidential relation to the clients you serve. The mainspring of your business is peculiarly that of utmost care and caution in the interests of your patrons. To protect the widow's mite, as well as the millionaire's bonds, is your mission. To have successfully accomplished this task—duty, I might well say—is to have established yourselves at the apex of our modern day civilization.

"In guarding the many interests that are assembled under your watchful eyes, you are met with many problems. You must be at once conservative and progressive. You must foster legitimate enterprises and you must block unwise projects. Ever ready to help the forward movement of capital in all of its manifold avenues of development, you are the conservators of wealth and advancement. Yours is an important place in the world today, and your policies play no small part in the making or unmaking of modern society.

"Finance is a science, almost an exact science. Banking means the applied laws of finance to the convenient and safe conduct of business. Here in this convention you will be called upon to discuss ways and means to interpret policies and to formulate plans. I feel assured you will all profit by this assemblage, and that we who are not of you, but with you, will not be the least gainers by that which shall result from your deliberations.

"Oakland is proud of her banks and her bankers. Their record is a clean one. Never has there been a bank failure in this city. Our financial institutions are strong and sound, and they are handled by men in whom the community has confidence and respect. The splendid growth of Oakland is reflected not only in the outward and visible signs, but in the steadily increasing volume of business transacted at our banking houses. During your stay with us you will have opportunity, no doubt, to judge of our commercial development, and I am sure our bankers will see to it that their guests are duly impressed with the excellent conditions that here obtain.

"But for the city at large, I see a great benefit to result from this convention. Oaklands feel an intense pride in their city. They are glad to have such men as you to look it over. They feel that the city will bear the closest inspection, and they want you to inspect it with the critical eye that you give to your business affairs. Therein we feel sure to be benefited. For when you return to your homes and your counting houses, you must take with you the knowledge of our city's standing in this great State of California, and you will remember, we hope, that Oakland is now on the high road of progress.

"Again, gentlemen, I cordially welcome you to our city and I trust that your stay with us will be so delightful and productive of good results that this State Convention of the Bankers' Association will linger long in pleasant memory with you, as I am sure will among us."

When the applause which greeted the close of the Mayor's welcome had died away, President Smith introduced H. S. Fletcher.

FLETCHER ON OAKLAND.

H. S. Fletcher, cashier of the Watsonville Bank, responded as follows:

"Mr. Mayor and Bankers of Oakland: On behalf of the California Bankers' Association, we thank you for your hearty welcome to this beautiful City of Oakland, and assure you that we highly appreciate the compliment of being invited to visit you.

"The labor, expense and care required to entertain the bankers of this State, may be to the people of Oakland as 'bread cast upon the waters.'

"Every banker, who has been in the business for above a dozen years, with credit to himself and satisfaction to his institution, has a clientage who come to him for advice on all business matters in much the same spirit that a person, religiously inclined, goes to a father confessor for advice spiritual.

TELL ABOUT OAKLAND.

"All your visitors have, more or less of such a following, and, upon our return home, when asked about Oakland, we will be able to tell of your enterprise, your manufacturing interests, your buildings, your homes and the people who own them; we can tell of your proximity to the metropolis and the lines of communication that connect you therewith, which demonstrate your importance. We can tell that the traveler departing from this country, as he goes out of the Golden Gate, casts his last lingering look on the spires of Oakland, and, returning, the first American city to spread out before his gaze is Oakland.

"Your growth is remarkable. Your future bright, and you have our hearty wishes that, in the near future, in company with San Fransisco, you may be referred to as the 'Twin Cities of California.'

"Again we thank you."

THE SPEECHES.

Mr. Fletcher's effort pleased the delegates and applause greeted his effort. Then came the address of President Smith.

Then came the turn of the Executive Council, which was improved by the chairman of that important body.

Association reports were then in order and were made with promptness.

These were soon over and the chair called for some information as to what had been done by the representatives of the Association in the East.

Then Oakland was called on for an expression of practical views and an immediate response was made.

This should have closed the exercises of the morning, but it was then only 11:30 o'clock and the delegates had no desire to adjourn so soon after assembling.

President Smith then called on William Mead, of the Central Bank of Los Angeles to read his paper on the "Advantages of Incorporated Clearing Houses," which had been originally set for this afternoon.

Mr. Mead, however, said that he had left the manuscript at the hotel, not expecting to be called on before the afternoon.

Secretary Welch then asked George W. Peltier if he would read his paper in advance of the time set for it, and the latter replied in the affirmative.

Mr. Peltier's effort was greeted with hearty rounds of applause.

COMMITTEES.

Committees were then appointed as follows:

Nominations—C. W. Bush, Woodland; D. Edward Collins, Oakland; H. P. Goodman, Napa.

Resolutions—J. K. Lynch, San Francisco; J. E. Baker, Alameda; George S. Meredith, Oakland.

Auditing—F. B. Kings, San Francisco; T. S. Hawkins, Hollister; S. J. Knight, Vallejo.

The secretary then read a telegram of greeting from Charles Altschul, a former president of the Association in New York, and a telegram recognizing the same was ordered sent to Mr. Altschul.

The chair then announced that lunch would be served in the room and a recess was declared until 3 o'clock this afternoon.

Tonight there will be a reception in honor of the delegates at the Home Club.

Special cars will leave Twelfth and Broadway every seven minutes between 8:15 and 9:15 p. m. for the club.

ENTERTAINMENT FOR FRIDAY.

Immediately after adjournment of the convention, about 12:30 p. m. special electric cars will be in waiting in front of the Athenian Club on Fourteenth street, for an excursion to the Claremont Country Club, where luncheon will be served. After luncheon, Piedmont and Berkeley will be visited, where fine views of Oakland and the bay may be obtained.

ADDRESS OF THE PRESIDENT

A. H. R. SMITH OF SAN FRANCISCO TELLS OF OUR TRADE.

At the Bankers' Convention this morning President A. H. R. Smith, cashier of the German Savings and Loan Society of San Francisco, spoke as follows:

"It is, indeed, a pleasure to greet so many familiar faces that have so materially aided to cement the friendship brought about by similar gatherings in the past.

"We come together not merely to exchange social greetings, but for the purpose of exchanging views and experiences that may tend to benefit our calling. I sincerely trust that this meeting will further assist to make new friends and associates that make life more endurable and happy.

"It is to be regretted that so many bankers abstain from attending the meetings of our association, who claim lack of time to attend, others perhaps that they cannot learn anything at these meetings, but surely the majority of us feel as though we might learn something from them, therefore hope that future meetings will be graced by their presence and give us the benefit of their experiences.

FREE SILVER DEAD.

"We can congratulate ourselves that the disturbing element of free silver issue, that has caused so much menace to our national prosperity, has been virtually eliminated from politics. The last Presidential campaign has not caused a ripple in sound investments, and business was carried on without any material change, confident that the present money standard will assist to increase the growth and commercial prosperity of our country. It is indeed gratifying to note that our sister republic, Mexico, has fallen into line and is on the gold basis since May 1st.

STATE LEGISLATION.

"The doubt and uncertainty regarding financial legislation in our State has again passed. At the last session of our State Legislature, various bills of interest to banks have been passed aside from the Bank Commissioners bill, and we can be pleased that an act has been passed fixing the limit of one year within which an action may be brought against a bank for the payment of a claimed forged or raised check. Heretofore, there has been no limitation in this respect; also that lost certificates of stock of corporations can be re-issued by duplicate when so ordered by the court after an action has been brought.

"The Legislature has also passed the much desired act that, at the next general election the question be submitted to the people to amend the Constitution, permitting public funds to be deposited in banks, thereby permitting the moneys to circulate in the channels of trade until needed.

DEPOSITS AND POPULATION.

"Notwithstanding that the population of our glorious State has increased rapidly and steadily, now estimated at over two millions, the new arrivals have found investment and employment in the many industries that have prospered, and when enterprises are remunerative, the banks are sharers in the general prosperity, which have steadily grown in number and deposits, as the following comparison will show:

January 1904—No banks, 380; deposits, $421,898,728.96; assets, $588,749,886.92. January 1905—No banks, 448; deposits, $451,938,256.96; assets, $634,402,587.09. Increase—No banks, 68; deposits, $30,039,528; assets, $45,652,700.17.

"Since then twenty-eight new banks have been licensed for business. Surely an indication of general prosperity and cause for rejoicing.

"Our foreign trade has steadily increased, outside of the additional exports to Japan, by necessity of the war during the past year.

"The imports in 1903 from the Orient were $19,803,097; from other countries, $16,719,090; total, $36,522,187.

"Imports in 1904 from the Orient were $24,844,494; from other foreign countries, $18,565,577; total, $43,410,071; increase, $7,087,884.

"The exports in 1903 to the Orient were $11,372,917; to other foreign countries, $20,399,196; total, $31,772,113.

"Exports in 1904 to the Orient were $21,053,259; to other foreign countries, $17,066,433; total, $38,119,692; increase, $6,347,579.

"To this must be added an average of $1,000,000 per month for non-contiguous countries, such as Alaska and Hawaii. With this commerce virtually still in its infancy, and with prospects of future development of trade with the Orient and the Philippines, and the possibilities after the opening of the Panama Canal, California is truly destined to be one of the most important of our States.

"California, with its sea coast larger than that of any State in the Union, and San Francisco with its magnificent harbor, the natural gateway between the Occident and the Orient with the Eastern trade growing continually, it should behoove not only the bankers but all Californians to urge the extension of our shipping interests by using our best endeavors to continually bring to the attention of the Federal Government the necessity of enacting such laws that may enable shipping to be done in American bottoms.

HARMONY NORTH AND SOUTH.

"Much might be said of the future

of California. Its development, however, depends not only in independent enterprise, but on harmonious action of the North and South of our citizens to encourage such enterprise, whether it be in the North South or Central California. Not that bankers in one part of the State, for instance, should feel grieved because outside banks cut into their business, when a little thought must convince them that the money so loaned gives employment to their mechanics, artisans, etc., to assist to beautify their cities, when these moneys remain in their field for general circulation.

PANAMA CANAL.

"I mention this for the reason that many States in the Union were opposed to the Panama Canal, because they did not derive direct benefit. Truly, it is a question with many in our own State, who doubt whether the canal will benefit us. In fact, many think that the Oriental trade will be lost to us entirely. Again can we not expect, when this great trans-isthmian canal is completed that new and perhaps unexpected trade will come our way, through lower transportation rates? But San Francisco must not expect all, nor must Los Angeles or San Diego. We must act in harmony if we hope for a successful future, for wherever the trade center of our coast may be, the whole State will be indirectly benefited.

"Just as the United States Weather Bureau does not now divide California in its reports as North and South, so should North and South be eliminated from our minds and think only of one California.

"The development of varied industries in our State has been marked with progress, assisted by the apparent inexhaustible flow of our oil wells, of which many new discoveries have been made.

CHANCE FOR FRUIT.

"Copious rains in all sections of our State, especially in the Southern part where the orange and lemon grow, have been of great benefit,—especially this year when reports come, following the severity of winter in the Eastern States, of the probable total loss in Florida of these delicious fruits.

"It must be indeed gratifying that our horticultural and agricultural interests have so greatly been benefited by the destruction of the orange scale, San Jose scale or black scale from our orchards, and if I am correctly informed, the codling moth is doomed to destruction by a parasite supposed to have been discovered.

NATIONAL DELEGATES.

"It has been a pleasure to name the following gentlemen as delegates to the convention of the American Bankfall: Irving F. Moulton of the Bank fall: Irving F. Moulto nof the Bank of California; Joseph D. Radford of the First National Bank, San Jose; W. T. S. Hammond of the First National Bank, Los Angeles; James K. Wilson of the San Francisco National Bank, and P. E. Bowles of the American National Bank, San Francisco, and we can look forward to listening to their experiences.

MEMBERS WANTED.

"I cannot conceive for a moment why all banks and bankers in this State are not members of our Association, for, through combined cooperation, it is possible to procure advantageous legislative action, aside from the practical benefits and pleasure derived from personal acquaintance of our fellow bankers.

"Have not all the State banking associations and the American Bankers' Association bettered the general conditions of the banks, whether State, savings or privates or trust companies through combined efforts?

"In this connection I might mention the advisability of the group system in vogue in the larger Eastern States, for in our own great State, where distances are at times too long to permit the bankers to attend council meetings as often as might be desired.

"In conclusion I desire to express my sincere thanks to the members of our council and members of this Association for their ever readiness to assist in all matters that were for the general welfare of our Association." (Applause.)

REPORT MADE BY THE SECRETARY

R. W. Welch of the San Francisco Savings Union, and secretary of the Bankers' Association, then presented his report for the past year which was of the briefest character, as follows:

"Our last convention previous to this met in Los Angeles, May 19th, of last year exactly twelve months ago lacking a day. Our net gain in membership during that time has been 16, bringing our number up to 265. But four banks have been lost to us. A small interior bank has voluntarily retired from business, and a Los Angeles savings bank and two San Francisco commercial banks have fallen prey to the devouring merger. None have defaulted in the payment of their dues. The record of our members in this respect is without reproach, the annual call for dues meets with an immediate response.

"Our treasurer is traveling in the Orient and beore leaving home requested the secretary to present his report. It is as follows:

Dr.

"Balance May 20th, 1904, as found by auditing committee	$1,918.88
"Received from dues	2,720.00
"Total	$4,638.88

Cr.

"By warrants drawn by president and secretary	$3,434.33
"Balance in hand	$1,204.55

"The books and vouchers are here to be submitted to the auditing committee when appointed. The report of that committee will give in detail the items of receipts and expenditures."

The reports were referred to the auditing committee.

WORK OF THE COUNCIL

F. F. MOULTON PRESENTED STATEMENT TO THE DELEGATES.

I. F. Moulton, cashier of the Bank of California, San Francisco, offered the report of the Executive Council as follows:

"The Executive Council by its chairman begs leave to report that its transactions since the last convention of the Association just one year ago at Los Angeles, have been confined to such routine matters as naturally come within the province of the Council, there being nothing involved therein calling for special mention.

"In common with their fellow citizens, bankers naturally have their attention attracted to the biennial sessions of our State Legislature. Measures for the regulation of the banking interests are to be expected as naturally as for the regulation of other public interests. This was a legislative year. An act amendatory of the Bank Commissioners' act was introduced at the instance of the Bank Commissioners and adopted. It amplifies their powers in some particulars, increases the revenue of the commission, and more equitably, it is claimed, distributes among the banks the annual assessment for the support of the commission.

RAISED CHECKS.

"Another act adopted, and which has the unqualified approbation of the banks, amends Section 340 of the Code of Civil Procedure, by limiting to one year the time within which an action must be commenced by a depositor or against a bank for the payment of a forged or raised check. Hitherto there has been no limitation in this respect.

"The vexed question of the withdrawal from circulation and temporary locking up in the public treasuries, every year, of moneys collected from taxes received a partial solution through the passage of an act which will permit the State to select banks as depositories for its surplus funds, the banks so selected to lodge with the State Treasurer adequate security in the form of bonds of the United States, this State, its counties, municipalities and school districts, and pay not less than two (2) per cent per annum on sums deposited; and further, a constitutional amendment was agreed upon to be submitted to the people at the general election of 1906, permitting counties and municipalities to select depositories under similar conditions. Much inconvenience is experienced, especially in the interior, by the periodical withdrawal from circulation of moneys collected for taxes, and this amendment deserves the suport of every citizen of the State.

PURSUING WRONG-DOERS.

"The Executive Council would respectfully urge upon this convention to give exhaustive consideration to the protective feature of the Association, determine if it shall be maintained, and, if so, define its scope and provide the means to render it effective. The provisions of the constitution of our Association in this respect are identical with those of the American Bankers' Association, and it is, therefore, in order to consider in this connection the rules which govern the conduct of the protective department of the American Association. They read as follows:

"'The American Bankers' Association in deciding to become the aggressive agent of its members for the apprehension and prosecution of professional criminals, devolves the executive work upon a Protective Committee of three persons (whose names are not made public) which committe has full power, when called upon for aid by any member, to take such steps as it shall deem proper, to detect, arrest and prosecute the offenders. The committee is limited in the expense it may incur to the amount of funds in the treasury appropriated for protective purposes. The constitution of the American Bankers' Association prohibits the Protective Committee from compromising or compounding with any parties charged with crime, or with their agents or attorneys. The policy of the committee is to relentlessly pursue every professional bank criminal, and to this work it distinctly limits its undertakings.'

"The following rules govern the action of the committee:

DETAIL OF PURPOSE.

"'1. Upon receipt of notification by the president or secretary of an attempted or successful perpetration of fraud upon a member of the association, either by forgery, check-raising, robbery or safe-breaking, which appears to be the work of professional criminals, accompanied by a full account of the offense, and, if possible, a description of the operators, the committee will, if the case come within the category of those of which the Association can take cognizance, at once undertake the apprehension of the criminals by means of the detective agency mentioned, and such other means as they may consider warranted. A case once committed to the Association, which results in the apprehension of the criminal, cannot be taken out of its hands, nor the offense condoned or compromised.

AFTER PROFESSIONALS.

"'2. The Association cannot take cognizance of petty larcenies, thefts by employes, amateur forgeries, or frauds committed by others than what may be termed professional operators.

"'The Protective Committee can spend no money, undertake no detective work, employ no lawyers and pay no fees of any kind in cases of local swindles, amateur forgeries, or frauds or confidence tricks. The vigilance, alertness and energy of the officers of the banks must be relied upon in such cases.

"'The efforts of the Association are exclusively directed against professional thieves, forgers, burglars and swindlers.

"'3. The Association cannot be held responsible for any expense incurred for protective work, which has not been previously authorized by the Protective Committee.'

DESERVES ENCOURAGEMENT.

"This is explicit, and it may now be definitely asserted that the efforts of the American Association are restricted to the punishment of professional criminals. The retirement of an individual of this character from his chosen line of activity is a benefit to every bank as well as to society at large, and the efforts of the American Association in this direction deserve all possible support.

"It is now for us to consider to what extent shall our local association attempt to supplement the protective work of the American Association in California. Shall we give attention to every professional who may be detected operating in the State, and also endeavor to apprehend and punish every local swindler or novice who may attempt a forgery or negotiate a worthless check? It is claimed by some that individuals of this latter class if not restrained at the outset of their career in time graduate and recruit the ranks of professional criminals.

PROTECTION ELSEWHERE.

"Inquiry was recently made of the various State associations as to the scope and character of their protective work. The responses were very general but diverse in opinion. The Atlantic States, as a rule, reported that little or nothing was attempted by them in this line, reliance being placed almost entirely on the American Association. The Central Western States give more attention to their protective feature, Ohio, Iowa and Missouri being most active in this respect. The idea that animates these associations cannot be more clearly expressed than in the words of J. M. Dinwiddie, the veteran secretary of the Iowa Bankers' Association, who says:

"'Inasmuch as the American Bankers' Association limits itself to the prosecution of experts in crime and will not take up others, but seem more inclined to permit those young in crime to become experts before they will prosecute them, the aid of the State association is needed. The Iowa Bankers' Association has prosecuted and sent up for terms ranging from one to ten years, perhaps fifteen to twenty persons who have committed crimes against some of its members, two-thirds of whom the American Association might never have touched, and in so doing have prevented these people from becoming experience operators and have prevented loss to the banks through them while they were becoming such criminals as the American would take hold of. I am not saying this in any sense of criticism of the American Association.'

PROTECTION FUND.

"If we are to systematically undertake and prosecute work of this character proper provision for it must be made. It involves expense if it is to be done effectively. Accordingly, if the Association decides to maintain its protective feature an amendment to our by-laws should be presented for adoption, authorizing the Executive Council, in any year, to call on each member for an additional pament, not exceeding its annual dues, for the purposes exclusively of the protective fund. It is in order to say that several of the State Associations obtain the means for their protective work from the commissions allowed them by burglary and fidelity insurance companies on insurance of this character written by the association for their members.

"With the growth of the Association its responsibilities increase. The great majority of the banks of the State have come to look to it to take the initiative in all matters relating to the general welfare of banking interests at large. This is as it should be and was the intention and hope of the founders of the Association. But the fixed income of the Association has been inadequate to its proper and dignified conduct. It is true that its officers have at all times felt that the resources of the Association were limited only by the surplus assets of its members, and in this they have never been disappointed. Any special calls of its members have at all times been cheerfully met, but its officers should not be forced to resort to these calls, naturally always a matter of hesitation. The fixed income should be sufficient to meet all ordinary expenses and provide a surplus for any emergency that may arise. There will be presented to this convention as an amendment to our by-laws a revised schedule which it is estimated will increase our revenue approximately 50 per cent. It lays no additional tax on the smaller banks and increases the dues of the larger banks by a series of gradations of capital and surplus.

STAND OF NON-MEMBERS.

"It is difficult to understand how any bank in California can reconcile itself to the position of a non-member of this association. It is true it may take to itself the satisfying thought that no organization of bankers can take any action or bring about any reform that will not redound to the advantage of all banks, members and non-members alike, but this is hardly conducive to its own self respect or likely to command the respect of its associates. Happily such banks are few.

REVISE CONSTITUTION.

"It is apparent to the Council that our constitution should be revised. Portions of it have become obsolete and should be repealed, other portions should be amended and re-written. Proposed amendments have been prepared for distribution among the members and will be called up for action in due course.

"Never has our Association convened under more auspicious conditions. There seems no occasion for anything but congratulation, congratulation on the growth of our Association, on the prosperity of our members individually, of our State in general and the country at large." (Applause.)

COLLINS SPEAKS ON BANKING

OAKLAND FINANCIER MAKES AN INTERESTING SPEECH BEFORE DELEGATES.

D. Edward Collins, of the California Bank of Oakland, spoke on "Banking," as follows:

"In the few minutes allotted, let us consider not the single, isolated, or independent bank; but, as exist in most countries, the group or system of banks which have been found best to subserve financial and industrial interests. In this examination many debatable questions are sure to arise, and the field of inquiry likely to be much extended. First of all, it is desirable that money should be clearly distinguished from credit. The ordinary definition of money may be accepted; in brief, it is the current coin accepted as legal tender; while credit is a right of action against a debtor. A bank deposit, or money in bank, is merely a bank credit which is negotiable. The banker simply gives credit upon his ledger for deposits—an acknowledgement of his indebtedness to the depositor.

SINGLE STANDARD.

"That either money or credit may be fully available there is essential need of a financial standard. The dollar, the pound sterling, the franc, the mark are all units which have an intrinsic and exchangeable value; but the weight, fineness and character of the unit must be legalized; in other words, the sovereign or government alone exercises the right of coinage. Gold and silver, have become generally accepted as money metals. Many countries, indeed most countries, until recently, have endeavored to keep both metals at par, and have been known as countries with a double-standard. With the great depreciation of silver some thirty years ago, however, it was practically impossible to main tain a parity between the two metals, and many of you will remember the widespread interest which was awakened on this very subject during the Presidential campaigns of 1896 and 1900. The outcome of these campaigns was favorable to the single standard, and legislative enactment has placed silver as a subsidiary coin. This legislation places the United States among the gold standard countries of the world, and gives to her securities an attractiveness to foreign purchasers which was denied to them under the bi-metallic standard. History seems to lend its endorsement to the assertion that silver and civilization travel in opposite directions.

HOARDING GOLD.

"Indeed, the truth of Gresham's law has been abundantly verified in the financial history of this country. When two sorts of coin are current in the same nation of like value by denomination but not intrinsically, that which has the least value will be current and the other as much as possible will be hoarded,' melted down, or exported.

"Recent agitation on financial questions has stimulated not only discussion but definite monetary legislation. The National Banks established by the National Bank Acts of 1863 and 1864, constitute our national banking system. The Scotch system of branch banks has been adopted by some of the principal nations, and is today receiving favorable consideration by our own financiers.

BRANCH SYSTEM.

"Strength comes from union. 'A fagot of many twigs is safer and stronger than the separate twigs could be,' says the financial minister of a South American Republic, and certainly a union of banks into some co-operating system would be a decided improvement. It seems to me, in this connection, that I may profitably quote a few sentences from an author who argues for the introduction of a branch system, and Canadian experience justifies the hope that such a system would flourish even in our vast and sparsely settled territory.

BANKS CLOSED BY PANICS.

"In the great panic of 1837-1838 more than 1,000 banks, practically all the banks in the United States, failed. In 1856 nearly every bank in the United States closed its doors and went out of business, and but few of them ever resumed. There was a great commercial crisis in Great Britain, but not a bank in England or Scotland failed. Again, in 1873 a great many banks in the United States failed, but there were no bank failures in Great Britain, except the City of Glasgow Bank, which had been practicing fraudulent methods for years.

NO FAILURE IN BRITAIN.

"In the panics of 1890-1893, which are now fresh in the memory, when bank after bank failed in the United States, and all the banks in New York City suspended payments, and only certified their customers checks, there was not a bank failure in Great Britain refused to extend its usual credits, without unusual restrictions, except for a short week in 1890, at the time of the Barings' failure, they put the brake on to the extent of raising the rate of interest to six (6) per cent.

"Certainly with a proper system and standard, banking becomes a valuable auxiliary in the extension of commerce. No less than commercial expansion does it form an integral factor in the equalizing tendency and the stability of prices. If the development of commerce leads to the fullest productivity of different regions, then the process of banking becomes indispensable to the distribution of the products. The increase in the capital and in the circulation of currency through banking credit make possible the agricultural and industrial development of frontier territory, which otherwise would remain dormant.

CREDIT CURRENCY.

"Money has been relegated to the operations of petty trade and the adjustments of final settlements. Indeed, it is estimated that ninety per cent of our commercial transactions are affected through credit currency. Our bank notes, our greenbacks, and our Treasury notes are, like checks merely credits which are to be eventually redeemed and cancelled by the issuing exchequer. Not only in their credit but likewise in their exchange functions, banks exercise a healthy influence on trade. Bills of exchange are credit currency, and may assume an international character.

FIXITY AND CERTAINTY.

"A bill of exchange will pay a debt in London as readily as coin and with much less trouble.' It has been truly said that 'the wares of commerce follow the drafts of commerce instead of a feg,' and London, by keeping a free market for gold and adhering to a fixed standard, without variableness or shadow of turning, has drawn to herself the command of the world's exchanges. The payment of a debt in London has always meant the same thing; no irredeemable paper; no depreciated silver, and no adjustment of gold to some changeable standard has vexed creditors. Payments have been made and are made in gold and its equivalent; a pound sterling is a given amount of gold of a prescribed fineness, and debts have been met in pound sterling for many a century. Fixity, permanence, certainty, are essentials in commercial values.

EQUALIZE DISCOUNT RATE.

"The introduction of this country to the Parliament of Nations, and the awakening of a national self-consciousness have imposed obligations which can not lightly be set aside. Within the past few years new and intimate relations have arisen between this country and territory which promises to become part of the Republic. In this history-making epoch new activity is felt in commerce and industry; and a vision of industrial supremacy invites this nation to gird her loins for the supreme effort. On every hand the cry of needs of the nation is heard. A navy, a merchant marine, an increased standing army, an Isthmian canal and a strong administration are demanded; and amid the din the voice of the banker may be heard to cry aloud that the gold standard must be supplemented by proper banking legislation. Surely the material prosperity of this great and rich country should rest upon a solid foundation of sound finance. Whether a central bank for banking reserve, a system of branch banks, or some modification of the local clearing house which will adapt itself to national purposes—at any rate, some method should be devised whereby our discount rate may be equalized throughout our territory and financial elasticity assured. It is our duty to aid every effort which is being or may be made to place our finances upon a broad basis. Legislators are at work; financiers are at work; economists are at work; and the results of their labor will surely remove every financial handicap. In the industrial race before us we must be thoroughly equipped and I am confident that the race will be but poorly run without the use of the best possible financial methods. Large investments are already being made by American citizens in the Philippines and China; then let us be prepared to make our settlements through the American banks and with the American dollar." (Applause.)

FLOURISHING BANKS OF ALAMEDA COUNTY.

Prosperity Indicated By Confidence of Thousands of Patrons and Millions in Deposits.

The first bank in Alameda county was established in Oakland 35 years ago. This was an achievement of which residents of this city at the time were proud, for the reason that, although Alvarado and San Leandro had preceded Oakland at different times as the seat of government of Alameda county, neither had made any attempt to establish a financial institution for the accommodation of its business men.

The bank in question was established in 1867 and the following brief paragraph relating to it is found in a history which covered [illegible] period but which did not app[illegible] the early eighties.

FIRST BANKING HISTORY.

"On August 19, 1867, the Oakland Bank of Savings filed it articles of incorporation, the first directors being W. W. Crane, Jr., A. C. Henry, E. M. Hall, Samuel Merritt and P. S. Wilcox. The capital stock was set down at one hundred and fifty thousand dollars, divided into 1500 shares of one hundred dollars each."

Associated with these directors, however, was also Joseph Becht, whose name escaped the early chronicler.

Some of these incorporators are still residing in this city. Age has advanced upon them, but they have not forgotten the inception of an enterprise which was fraught with difficulty and responsibility and which, at the same time, showed their belief in the commercial importance of Oakland, a belief which is still entertained and shown by the number, stability and excellent homes of the banks which are located here at the present time

A. C. Henry was elected the first president of the bank and E. M. Hall, Sr., the first cashier Hall resigned his position a few days after his election and J. L. Brown was elected cashier in his stead.

OAKLAND IN EARLY DAYS.

When the Oakland Bank of Savings was incorporated, Oakland inspired the chronicler of the time to write as follows:

"In the preceding four years, the population of Oakland had doubled The improvements that were made within that time, as well as those then making, were of a substantial and permanent character. Elegant and commodious residences were erected in all parts of the city, while there had been gathered within her borders a circle of society distinguished for its intelligence and refinement. As a general rule, her people owned the property lived upon, and considered themselves fortunate in possessing homes surrounded by so many advantages The beauty and fertility of the adjacent country, the excellence of roads diverging in all directions, from the city, the delightful drives, the healthful invigorating atmosphere, and, withal, its proximity to San Francisco, proved sufficient guaranties not only of the stability of Oakland but also of its rapid growth

"The city by this time had become a perfect Arcadia The oaks had doffed their old foliage and donned a new coat of verdant leaves, so green that the eye and mind are lost in admiration of nature's favorite tints. The carpet beneath the stately limits of those primeval monarchs, although similar in color to the foliage above, is nevertheless so diversified by the many wild-flowers of spring, studding the moss-like gems in an artificial scene, that the relief from a universal sameness is most complete. The homes of the people showed the luxuriant blossoms of the peach and the pear, while their well kept flower-gardens, gave character to the surrounding scenery. They furnish the idea that civilization is around ready to mitigate any sameness incidental to nature's efforts."

Commenting on the industrial progress of Oakland, at that time, the same historian writes.

"Oakland was coming into note as a ship-building port. In July, Captain Birdsall had a one-hundred-and-fifty ton schooner on the stocks, at the foot of Franklin street, with another vessel contracted for. In this year, too, the wooden building belonging to F. K. Shattuck that stood at the corner of Broadway and Eighth streets, was removed and a new brick block, fitted up with capacious stores, built So many improvement were made in this year, that it is utterly impossible for us to enumerate them, but it may be mentioned that their cost is estimated at six hundred and fifty thousand dollars . . . In this year, too, a steamboat one hundred and sixty feet long, thirty-three in breadth, and six feet depth of hold, was built by Small & Spier at the foot of Franklin street."

SECOND BANK FOLLOWS.

The projectors of the first bank in this city, therefore, believed that the then business and future prospects of Oakland justified them in their enterprise Experience convinced them of the fact, because two years had not passed before some of them withdrew from the enterprise and established a second bank for the accommodation of the growing business of the community.

SECOND BANK IN HISTORY.

Referring again to the historian of that period, the following is found:

"Among the events of general interest that occurred in the city of Oakland during the year 1869, was the opening of the Union Savings Bank, with A. C. Henry as president on July 1st, while about the same time, the Mutual Provident Association of Oakland was organized, N. W. Spaulding being its president."

Soon after the organization of the Central Bank, the institution took possession of its present fine building at the northeast corner of Broadway and Fourteenth street, then the most pretentious building in Oakland, and this structure has ever since been a source of satisfactory revenue to the owners.

For a few years, the commercial and savings departments were conducted in the same quarters, but, recently, special quarters were provided for the savings business and, at the same time, a magnificent, safety-deposit department was introduced, at great expense to the institution.

THE LATEST NEWS OF THE DAY—4:30 P. M.

SUICIDE FAILED TO KILL THE WOMAN.

New York Police Are Investigating Mysterious Poisoning Case.

NEW YORK, May 18.—Herbert Leon Kepler, a bookkeeper, whose home was at Deland, Fla., died in a room in Sussen's Hotel today at Forty-sixth street and Sixth avenue from morphine poisoning. With him at the time was a woman who told the police her name was Mrs. Dona Miller and that she fled from Deland with Kepler two weeks ago. Mrs. Miller said Kepler was the son of a Deland physician and that he left Florida suddenly because of some trouble which he got into there. He left a wife and several children behind when he fled, and she left her husband to come with him. She has been detained by the police pending a further investigation. Kepler was about 35 years of age.

In the room which Kepler and the woman occupied the police found two small bottles. One was filled with morphine and the other, nearly empty contained a trace of the drug. Mrs. Miller told the police that Kepler had been despondent for several days and had told her that unless his father did something at once to fix up the trouble at Deland he feared something dreadful would happen.

Later Mrs. Miller told the coroner that a portion of her story as she gave it to the police was untrue. She had not lived with her husband in several years, she said, and did not flee from Deland with Kepler. She had been in New York or vicinity for several years. She also told the coroner that she had been a witness in the Wm. Hopper Young murder case in this city several years ago. She lived in the house with the murdered woman, she said, and had first introduced her to Young.

Mrs. Miller also said that Kepler left a letter addressed to his father and mother begging that he and Mrs. Miller be not separated in death and that his parents and daughter forgive him for his act.

In view of this letter the police believe that Kepler intended to kill both himself and the woman.

HIRAM HALL WILL SOON TAKE A BRIDE.

His Engagement to Miss Bessie Haven Announced This Afternoon.

Mrs. Fred L. Haven announces today the engagement of her daughter, Bessie, to Mr. Hiram Tubbs Hall.

The engagement is a social event of much importance, since for many years the Hall and Haven families have been among the most conservative and most representative families of the city.

Mrs. Hiram Tubbs Hall is the eldest grandson of the late Hiram Tubbs, who was one of the most representative citizens of his day. The history of the Tubbs influence in social affairs is well known among the older families of the city.

Mr. Hiram Hall is the eldest son of Mr. and Mrs. E. M. Hall Jr. His grandparents, the E. M. Hall Senior, have Oforwho, 'Sr. ..Cq.fih av sThie1..hi for man years been among the leading and influential people of the city. The Halls senior, and Miss Harriet Hall have always entertained extensively.

Mrs. E. M. Hall Jr. is the eldest daughter of the late Hiram and Mrs. Tubbs. She was one of the charming family of attractive daughters, who made the Tubbs houshoul so interesting some years ago.

Miss Bessie Haven is the eldest daughter of the late Frederick Haven and Mrs. Fred Haven, and she is the eldest grandaughter of Mr. and Mrs. Charles D. Haven. The Haven and Dixon families which her mother represents are also among the families associated with the early history of Oakland.

Miss Haven is a very charming girl, one of the most beautiful of the younger set of girls so rapidly coming forward in the social world.

She is a very young girl, and has not really come out in a social way, though she has been a very popular girl at the Friday Night dances.

She is the first of the very young set of girls to announce her engagement, and the announcement is being received with much enthusiasm by the younger set of girls, with whom Bessie Haven is a very great favorite. There will be many compliments for her in a social way.

Miss Haven and Mr. Hall have been neighbors and schoolmates all their life, and the engagement announcement was not unexpected. The wedding of the young people has been set for early in October. Already plans are being drawn for the home of the young people, a beautifully picturesque shingled home to be built on the lot adjoining that of the E. M. Halls Junior, in East Oakland. Work on the artistic little home will be begun in a few days. It will add another home to those of the relatives in East Oakland.

Mr. Hiram Hall and Miss Bessie Haven are to have a church wedding, early in October, in the picturesque Church of the Advent in East Oakland.

The William G. Henshaws, relatives of the groom will be home then. They are coming home by way of the Orient, and they will take u ptheir residence at the St. Francis.

Mrs. Charles D. Haven and Miss Carrie Haven will also be home from their European trip in time for the wedding.

Nothing more interesting in a social way, has happened in Oakland for a long time. The bride elect is a charming and most attractive young girl, who will make a delightful hostess in her own home, and the groom to be. Mr. Hiram Tubbs Hall is a young man full of promise. He has been educated in the Horton School, the High School, and in the State University. He is now holding a responsible position in the Union Savings Bank, and has every prospect of working out a most successful future.

THIS MAN CONFESSES TO 5 MURDERS.

CHESTER, W. V., May 18.—In a letter to the police authorities of this city a man signing himself "A. Johnson" and claiming to be a partner of Henry Williams, who was recently executed in Roanoke, Va., has confessed to five murders and numerous robberies.

His reasons for writing are that other men have suffered for his crimes and his conscience troubles him.

The dates and manner in which the different crimes were committeed as furnished in Johnson's letter are more complete than the police records, and the authorities believe its authenticity.

According to Johnson, he killed a woman at Chester, W. Va., two Italians at Uniontown, Pa., a man at Hyndman, Pa., and a woman at Martins Ferry, Ohio. He also claims to have assaulted a woman at Staunton, Va., for which crime, he says, another man was lynched.

HERBERT CROKER IS BURIED

NEW YORK, May 18.—Funeral services over Herbert Croker, the son of Richard Croker, who died suddenly on a train near Newton, Kas., on Thursday last, were held today in the Church of St. Agnes. Mrs. Richard Croker, his mother, was too ill to attend, and the Croker family was represented by Richard Croker Jr., Misses Ethel and Florence Croker, Edward Croker, Chief of the Fire Department, and Captain James Collins, brother of Mrs. Croker.

DECISION UPHELD

P. A. Cameron Loses All Right to Rich Mining Claim.

"He who asks equity must do equity" is the opinion of the Supreme Court in an opinion just handed down in the case of P. A. Cameron against J. R. Burnham A. T. Eastland, John A. Britton, D. P. Gray, James B. Wing, A. L. McPherson and James A. Joyce as the owners of the Gray-Wing Mining Company.

Cameron agreed to go in with the others, but when it came time to pay his assessments he refused to "put up." The others went ahead with the work of prospecting and when they struck it rich Cameron wanted to be "declared in" on the deal. This was refused and he brought suit to force the others to give him a one-ninth share in the property.

In their summing up of the case the Supreme Justices use the following language:

"Cameron refused and neglected to pay anything and 'persistently and wilfully declined and refused to participate in, or to have anything to do with the work.' Time and again he declared that he was out of it and was glad of it: that defendants were a 'bad lot'; that he had 'not paid in' and was not going to pay anything or have anything at all to do with the matter. The court finds that 'ever since the twenty-first day of May, 1901, the plaintiff has repudiated, disavowed, withdrawn from said work.' In the meantime the other parties to the agreement, recognizing that plaintiff was 'out of it' preceded to prospect the ground at an expense to them of much more than the original amounts subscribed, and finally, as appears in October, 1901, struck a rich mine, and have since worked the same with considerable profit.

"Plaintiff has done nothing at any time and contributed nothing towards the discovery, development or working of this mine. On the foregoing facts we are of the opinion that plaintiff was not entitled to the relief prayed for. The plaintiff, after having neglected and refused to perform any part of his agreement, after standing by for five months watching the other parties spending their money in search of this gold that no one knew existed, all the time declaring that he was 'out of it' and would have nothing to do with it, doing what he could to discourage the enterprise, now seeks in this equitable action to compel the defendants to share with him the profits of their industry and expenditures of moneys. This he cannot do in a court of equity. He who asks equity must do equity. He who seeks to enforce a contract must show that he has complied with the conditions and agreements of the contract on his part to be performed. A court of equity will not countenance such an injustice. On the most familiar principles of equity it is clear that the trial court sitting as a court of equity was fully warranted in denying the plaintiff all relief."

This is the history of how Cameron came to lose his interest in a good thing. He brought suit in the courts here and the decision was given against him by Judge Ogden, which has now been affirmed.

GIVEN A DECREE.

Mary A. Winckler was granted an interlocutory decree of divorce from William J. Winckler this morning on the ground of desertion. She was also granted the custody of the two minor children and $25 a month alimony.

ROME, May 18.—King Victor Emanuel today received in private and most cordial audience Senator Henry Cabot Lodge of Massachusetts, showing great interest in and knowledge of American affairs. The conversation, which was in English, lasted half an hour.

BURGLARS IN CHURCH

Coat, Can of Tomatoes and $20 All the Booty Secured.

The church thieves that have been favoring San Francisco, Alameda and Berkeley in the last few days have not overlooked Oakland, and as a result two complaints were lodged with Chief of Police Hodgkins this morning.

The churches visited were the First Congregational, at the corner of Twelfth and Clay streets, and the First Presbyterian Church, at the corner of Fourteenth and Franklin.

A coat was all that was secured from both places, but there was evidence that the thief had made a pretty systematic search for valuables.

An entrance was effected to the Presbyterian Church by prying open the rear window. The marks on the window sill indicate that a "jimmy" was used.

An entrance was gained to the Congregational Church by the same means. It was here that the coat was taken.

IN ALAMEDA, TOO.

ALAMEDA, May 18.—Four churches were burglarized here last night and $20 and a can of tomatoes were the entire haul of the thieves.

The churches entered were Christ Episcopal on Grant street and Santa Clara avenue, First Congregational at Central avenue and Chestnut street, the Unitarian on Grant street and Santa Clara avenue and the North Methodist on Santa Clara avenue, near Union street.

From the desk of the assistant pastor in the study of the Christ Episcopal Church $20 was secured. Entrance was obtained by breaking a window in the rear of the church. At the First Congregational the rear door was wrenched from the hinges and through it the thieves gained access to the church.

The only thing they secured from this church was a can of tomatoes that was lying on the kitchen table of the church. The can was opened and the contents eaten by the hungry thieves.

A window was forced open in the rear of the Unitarian Church, but nothing was taken. Nothing was taken from the North Methodist Church. The thieves gained entrance to this church through a back door which had been left open.

It is the theory of the police that it was the work of the same thieves who robbed several churches in Berkeley a few days ago.

FALLS TO HIS DEATH

John Lannigan, an inmate of the Blind Home on Telegraph avenue, came to a tragic death yesterday afternoon by plunging through an opening in the second story to the lower floor sixteen feet beneath. He struck squarely on his head, sustaining a fracture of the skull.

He was removed to Fabiola Hospital, where Doctors Woolsey, Rowell and Dukes attended him. The fracture was a very bad one and medical science was of no avail in relieving the injured man's condition. Lannigan never regained consciousness after being taken to the hospital and passed away soon after 8 o'clock.

The deceased was 66 years of age. He was a native of Ireland, but had come to this country when a young man. He had been an inmate of the Blind Home for the last fourteen years. He was a broom maker by occupation.

FINAL PLEA FOR HOCH

CHICAGO, May 18.—With a final plea in behalf of Johann Hoch, charged with the murder of Mrs. Marie Walcker-Hoch, counsel for Hoch, Attorney Isador Plotke today finished his address to the jury. Assistant States Attorney Harry Olsen then followed with an attack on the contention of the defense and concluded with the demand that Hoch be adjudged guilty and the death penalty be inflicted.

AGED WOMAN DIES.

Mrs. Hannah F. Chambers, a native of Maine, died at her home on Twenty-seventh street today, aged sixty-six years of age. No children survive her. She was the widow of the late Col. Alexander Chambers. The funeral will be held on Sunday.

SOLDIERS MURDERED BY UNKNOWN ENEMY.

OKLAHOMA CITY, Okla., May 18.—A special to the Times-Journal from El Reno, Okla., says:

Lieutenant Granville Chapman, stationed at Fort Reno, was shot in the back today while assisting in the maneuvers of six companies in a running fight, and instantly killed.

Early this morning six companies of infantry were called out for field maneuvers in the presence of Brigadier-General F. M. Lee, whose headquarters are at San Antonio.

While engaged in a running fight across the prairie northwest of town, Lieutenant Chapman, who was acting as the battalion adjutant, received a shot from a ball cartridge fired from the companies opposing him.

He died where he fell.

Foul play is suspected and a rigid examination is being instituted to determine if possible the person who fired the shot.

At the present time no one in the six companies engaged can throw any light on the subject.

TO WASH HIS FEET

Why This Man Walked Into the Bay of San Francisco.

After an exhaustive examination this morning, George Carpenter, an Armenian, was found not to be insane but a Theosophist, and he was allowed his freedom and permission to return to the neighborhood of San Leandro with his friend, George Premier.

Carpenter was found wading out into the San Francisco bay, and as his English is not of the best Constable Olympia concluded that his acts and his mutterings were those of one demented.

TO WASH FEET.

It was satisfactorily explained this morning, however, that Constable Olympia had acted on the wrong premises. Carpenter waded into the bay in order to follow out the instruction of the Bible in regard to the washing of the feet. He had no thought of self injury.

When Judge Ogden began a discussion of the occult sciences with Premier, Carpenter was all attention and joined in the discussion with much zest. Premier also explained that Carpenter was good for nothing, but as a Theosophist and that he was incapacited for work for thinking about it.

"I, however, will take care of him," said Premier striking himself on the chest. And rather than burden the State with the care of a man who seemed, harmless, he was granted his request to be allowed to take his friend away with him.

Carpenter says that most of his family was massacred by the Turks, but also says that his religion will not allow him to talk about it.

METCALF IS AWAY

WASHINGTON, May 18.—Secretary Metcalf of the Department of Commerce and Labor, who is being talked about in Washington today as a probable successor to Paul Morton as Secretary of the Navy, is in Atlanta, and no statement can be had from him until he returns. It is not very probable, however, that Mr. Metcalf would care to make the change. The understanding was that when he came into the Cabinet less than a year ago he could have the naval portfolio had he desired it. Since then he has become extremely interested in the work in the Department of Commerce and Labor, and as his health is not altogether robust, it is considered doubtful by his friends, if he would care to make the change.

SAYS LAKE MERRITT IS "OLD MUD HOLE"

D. A. Peasley, a youth recently from the East, was before Acting Police Judge Quinn this morning to answer a charge of swimming in Lake Merritt in violation of a city ordinance.

"Were you in swimming," asked Judge Quinn of the urchin, who vividly recalled the Judge's own boyhood days.

"Yep" responded the defendant.

"Did you have a bathing suit on?"

"I had a pair of trunks on. The kids told me that was all I had to have on."

"If I let you go without sending you to jail will you promise me not to go swimming any more?"

"I wouldn't go anyhow; the Lake is nothing but an old mudhole."

The youth was then given his freedom.

MRS. KINGMAN PASSES AWAY

Mrs. Myragtt V. Kingman, a retired school teacher, residing at 1556 Twelfth avenue died this morning at her home. She was a native of Vermont, but had resided in this city for the last thirty-five years. For thirty-two years she occupied a position as a teacher in the schools of this city. During the last three years, however, she has been leading a retired life owing to her age. She was a widow, her husband having preceded her death by three years. The funeral will probably be held some time Sunday.

STOLE FOR HIS BABE

William Hatfield, a painter residing at 822 Chestnut street, who is accused of having broken into the trunks of James Jaspar of 740 Willow street, was held to answer this morning by Police Judge Smith on a charge of burglary. His bail was placed at $1,000 cash or $2,000 bond.

Hatfield's story of how he came to rob the trunks of Jaspar is not without pathos. His wife died three years ago, leaving him with a four-months' old baby. He took care of the child and raised it as best he could until the last few weeks.

He was out of work and finally took to drinking. He was on a protracted spree and finally, to raise money, the overwhelming desire to commit a crime took possession of him. The result of this impulse was that he conceived the plan of robbing the Jaspar home.

While under the influence of liquor he is alleged to have broken into the house through the rear window while Jaspar was away and to have rifled four trunks. He was seen to enter the house by neighbors.

He at first denied that he had anything to do with the burglary, but when the stolen goods, consisting of an assortment of jewelry and $2 in cash, were found at his home, he made a practical confession to the detectives.

It is possible that owing to the previous good reputation bourne by the defendant he will be placed on probation when his trial comes up before the Superior Court. Neighbors are taking care of the babe, whose existence will probably have much to do in keeping its father from going to the State's Penitentiary.

W. M. CROWN IS GUEST OF FRIEND

W. M. Crown, a well known business man of Eureka, is in town today, a guest of Deputy District Attorney W. L. Hynes. Mr. Crown came to Oakland for the purpose of securing a number of acres of land in one tract, his idea being to sub-divide them into town lots and sell them. He is a shrewd business man, and says he sees many opportunities for business investments in Oakland and vicinity.

WATER IN LAKE IS PURE

The members of the Board of Health who yesterday visited the water sheds of the Contra Costa Water Company have returned and report that the sheds are in good condition, and that the quality of water supplied by them is pure. There seems to be little probability that the typhoid fever now existing in the city can be attributed to the water supply.

Commissioner North's Estimates.

It is both profitless and needless to complain of the inaccuracy of the population estimates put forth by the Census Commissioner. It is not claimed for them that they are any more than estimates, and the method of making them takes no account of local conditions. They are compiled for certain general purposes, but are never presented as an index to the growth of population in specific localities. If people would ascertain why they are made and how they are made they would cease to grumble about their inaccuracy.

These population estimates are figured out on the basis of the percentage of increase or decrease shown in the last decade for which the census was taken by actual enumeration. Hence it is estimated that Memphis has added more thousands to its population since 1900 than has San Francisco. But such is not the fact. All the known facts indicate that the inhabitants of San Francisco number nearly, if not quite, 100,000 more than they did in 1900, yet the estimate of Commissioner North places the increase at 22,000. The same method of estimating gives the increase in Oakland's population during the last five years at 12,500. There is hardly a reasonable doubt that the actual increase is more than double these figures.

However, it must be said for Commissioner North's estimates that experience in the past has demonstrated the method by which are obtained to be fairly accurate taking the country as a whole. The population of the entire country increases about so fast, but the ratio of growth varies in different localities. And it must be borne in mind that Commissioner North's figures are not prepared as vital statistics of communities by themselves.

The Vallejo News is wrong in saying the roadways of Oakland streets are constantly being narrowed. On the contrary, the attorneys for the city have continually advised the Council that a street having once been dedicated is the inalienable property of the public—not of the municipality but of the public at large. Permits granted by the Council for encroachments on the streets are void in law, and persons erecting obstructions by authority of such permits can be made to remove them by any taxpayer who chooses to appeal to the courts. If the Council or Board of Trustees of any city have the right to sell or give away one inch of a dedicated highway they have the right to sell or give away the whole street. They have no more right to sell part of it than they have to sell all of it.

Nan Patterson is finding out that shooting Caesar Young was a profitable speculation. She is to receive $2,000 a week for doing a song and shape stunt in a vaudeville show.

Alexander Hamilton's Theories.

The Hanford Sentinel had better quit calling names long to specifically state what it was that Alexander Hamilton ever said or did to endear him to posterity. When the Sentinel says the imprint of Hamilton is on the Constitution of the United States, it displays its ignorance of American history. Hamilton had no part in framing the Constitution, but did become its ardent advocate in The Federalist. He advocated the ratification of the Constitution not because it was the charter of the kind of a government he wanted, but because he preferred it to one still more democratic.

He chose what he deemed to be the least of two evils, for it is notorious that he desired the establishment of a monarchy modeled after that of Great Britain, which he pronounced the "best form of government ever devised." After the Constitution was adopted, he became a leader in the movement to override and nullify some of its provisions. He did not believe in a government by the people, and nowhere in his writings can be found any sympathy with democracy in its broad true sense.

It is no slander to tell the truth about a man, and it is the truth that Alexander Hamilton was a monarchist, a bastard and a dissolute man in private life. In respect to his relations with women he was on a par with Aaron Burr. It is true he was a man of commanding talents, who performed invaluable services in the organization of the government, but it is a fact nevertheless that his political principles were alien to the spirit of this Republic. The country has grown steadily away from Hamilton's theory of government, hence Hamilton's memory is not treasured in the hearts of the masses of today.

When the members of the State Bankers' Association meet in Oakland they will be in a city that has never had a bank failure, a bank defalcation or a serious bank run. The banking history of Oakland is a record of unbroken success, due to safe management, sound methods and scrupulous integrity. Every citizen can point with pride to the financial institutions of the city as an evidence of solid, substantial growth not to be gainsaid.

The school census credits Alameda county with an increase of 1009 children of school age during the past year. Of this number, Oakland, containing more than half the population of the county, is credited with 50. The veracious census taken in this city makes out that the increase in children has been smaller here than in Fruitvale and San Leandro.

The President's Traveling Expenses

A good deal of nonsense has been printed about the alleged impropriety of the President availing himself of the special trains placed at his service by railroad managers. The basis of all the criticisms is the assumption that the President is accepting something from the railroads for which no quid pro quo is rendered. It is also assumed that the railroads put themselves to an expense in accommodating the President for which they are not recompensed.

Both assumptions are wide of the truth. It pays a railroad to place a special train at the disposal of the President to transport him and his suite over its lines. The advertisement is worth all the train costs, but that is the least item of profit for the railroad companies. The President's coming makes business for the roads. Crowds gather at the stopping places, excursion trains being run to accommodate them, hence the railroads make money by extending the use of a train to the President. The visit of Mr. Roosevelt to California was worth many thousands of dollars to the Southern Pacific and Santa Fe over and above the cost of the train furnished him.

Nevertheless the President has grown restive under the criticisms directed at him, and announces that he will accept no more courtesies at the hands of railroad managers. He will pay out of his own pocket the cost of the train used by himself and party on his recent western trip. The expense is placed at $3,000. It ought to be evident that this expense should not be a private charge to the President. His salary is only $50,000 a year—entirely too small for the dignity of his office and the personal expense it entails—and he cannot travel as other men do. His position compels him to travel en suite and to do the entertaining himself. Some provision should be made in the way of increased salary or a traveling allowance to relieve the President of an expense which redounds to the financial benefit of others and which he can ill afford.

The Bible on Wine Drinking.

Writing to the Los Angeles Herald in support of his contention that the wine drank by Christ and His disciples at the Last Supper was merely unfermented juice of the grape, Rev. Stephen Bowers says there is but one place in the Old Testament wherein wine is recommended as a medicine. Mr. Bowers has not read his Bible carefully if he finds that all its references to wine are made to impress either temperance or abstinence. But he makes a strange oversight in quoting the fourth verse of the thirty-first chapter of Proverbs and ignoring the sixth verse of the same chapter. The fourth verse says: "It is not for kings, O Lemuel, it is not for kings to drink wine; nor for princes strong drink."

The sixth verse reads as follows: "Give strong drink unto him that is about to perish, and wine unto those that be of heavy hearts." And the seventh verse significantly adds, "Let him drink, and forget his poverty, and remember his misery no more." Clearly this recommends drinking fermented wine to the point of intoxication. It is a plain exhortation for those in poverty and misery to drown their sorrows in drink, yet Proverbs xxi, 17, says, "he that loveth wine and oil shall not be rich." We are also told that "wine is a mocker and strong drink raging," a fact we all realize without taking the testimony of Holy Writ. But why does Mr. Bowers ignore the passage of Scripture recommending the poor and miserable to drink that they forget their poverty and cease to remember their misery?

HAPPY RESULTS

Have Made Many Oakland Residents Enthusiastic.

No wonder scores of Oakland citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Oakland by Doan's Kidney Pills.

C. T. Warren, house painter, paper hanger, etc., of 2008 Eighth street, Berkeley, says: "Like the majority of men who follow my calling I have been annoyed with my back and kidneys for years. I think if the primary cause of backaches in painters is not the fumes of the ingredients they use they certainly aggravate such annoyances when they exist. The painter requires a good, sound back, and when it aches and pains he is often in misery. Other complications of the stomach existed when I went to a drug store for Doan's Kidney Pills, and I scarcely expected the remedy would help my back. Much to my surprise and more to my gratification after I had taken two boxes, the backache ceased."

THE BEST OF LIFE.

Not till life's heat is cooled,
The headlong rush slowed to a quiet pace,
And every purblind passion that has ruled
Our noisier years, at last
Spurs us in vain, and, weary of the race,
We care no more who loses or who wins—
Ah, not till all the best of life seems past
The best of life begins.
To tell for only fame,
Handclappings, and the fickle gusts of praise,
For place or power or gold to gild a name
Above the grace whereto
All paths will bring us, were to lose our days;
We, on whose ears youth's passing bell has tolled,
In blowing bubbles, even as children do,
Forgetting we grow old.

But the world widens when
Such hope of trivial gain that ruled us lies
Broken among our childhood's toys, for them
We win to self-control!
And mail ourselves in manhood, and there rise
Upon us from the vast and windless height
Those cleaner thought that are unto the soul
What stars are to the night.
—The Spectator.

MRS. J. C. BUCKBEE PASSES AWAY

WELL KNOWN WOMAN DIED YESTERDAY IN SAN FRANCISCO.

SAN FRANCISCO, May 18.—Mrs. Julia Crocker Buckbee, the wife of Samuel G. Buckbee, died quite unexpectedly at her home yesterday afternoon at 1.30 o'clock. The second baby of the family passed away on Monday, causing as well the death of the mother, complications which were not anticipated arising from its birth and resulting fatally. The news has been the greatest shock and grief to the many friends of Mrs. Buckbee, and the deepest sympathy is felt for the members of the bereaved family, and especially for her husband and the little daughter of three years, who is left motherless Mrs Buckbee, who was the daughter of the late Mr. and Mrs. Clark W. Crocker, was a great favorite, and her cheerful, sunny disposition and charming manner will be sadly missed She was born in Sacramento, but came to San Francisco to live when a child. She received most of her education here, but was at school in Paris for some time. On her return she made her debut and was very popular in society, becoming the wife of Samuel G Buckbee about eighty years ago. She is survived by three sisters—Mrs W C Van Fleet, Mrs. Robert McCreary of Sacramento, both of whom were with her at the time of her death, and Mrs Frederick Green and one brother, Henry J Crocker The funeral services, which will be private, are to be held at her late home on Friday.

WOMAN AUTHOR DIVORCED

MRS. JULIET TOMPKINS POTTLE IS GIVEN A SEPARATION.

WHITE PLAINS, N. Y., May 18—Supreme Court Justice Keogh has granted an interlocutory decree of divorce to Mrs Juliet Tompkins Pottle the noted young author, from her husband, Emery Pottle, the New York lawer. It was learned, on the report of Henry W Taft, who was appointed referee by Justice Keogh to take testimony Mrs Pottle was represented in the proceedings by a lawyer of Manhattan, while Pottle appeared on record as counsel for himself Secrecy surrounds the grounds for the decree Pottle is also a short story writer Both he and his wife have written about each other in fiction "The Reparation," by Emery Pottle, recently published in a high-class magazine describes a husband's feelings who lived with a woman not entirely in harmony with him

Mrs Juliet Tompkins Pottle is well-known here, where she has a large circle of friends

CAPTURE ESCAPE FROM ALCATRAZ

ST LOUIS, May 18—James Tirney, who the police say escaped from the Government prison at Alcatraz Island, Cal has been arrested and will be held pending the receipt of a telegram from the prison officials

It is said that Tirney was serving a ten-year term for an assault committed on Captain Beck of Company G Twenty-seventh Infantry, in the Philippines three years ago

"COWARD ADAM."

"Never kiss and tell' is, I believe, an 'unwritten law of chivalry" This law, so I understand Coward Adam does sometimes manage to obey albeit reluctantly Because he would like to tell—he would very much like to tell—if—if the story of the kiss did not involve himself in the telling' But at this juncture "the unwritten laws of chivalry" step in and he is saved And chivalry is the tree up which he climbs chattering to himself the usual formula— The woman whom thou gavest to be with me,' etc. etc. Alas, poor woman' She has heard him saying this ever since she in an unselfish desire to share her food with him, gave him the forbidden apple No doubt she offered him its rosiest and ripest side! She always does—at first Not afterward! As soon as he turns traitor and runs up a tree she takes to pelting him, metaphorically speaking, with cocoanuts This is quite natural on her part. She had thought him a man—and when he suddenly changes into a monkey she doesn't understand it To this cause may possibly be attributed some of the ructions which occasionally jar the harmonious estate of matrimony —From Marie Corelli's "Free Opinions"

THE RECORD OF EMOTIONS.

We cannot always charge it to old age when we find our foreheads are crossed with a distressing network of tiny lines. It is not always age that makes those disagreeable rows across our foreheads and around the eyes There are some grandmothers whose faces have hardly a wrinkle and some granddaughters whose brows are as seamed as they might be at 60 Time is not responsible for these vexing little lines A good many of them may be charged up against worry if one gets in the way of fretting over everything that has gone wrong and everything that one thinks likely to go wrong, the record upon one's face will be a mark which is hard to erase and is far uglier than the lines the happy years bring.—Philadelphia Inquirer.

NEW MEMBERS FOR UNION

TWO APPLICATIONS RECEIVED BY BUTCHERS—MINISTER WILL SPEAK.

Two applications for admission were received at the meeting of local No 120 of the butchers last night. In the absence of Jack Erhard the secretary, George Janssen was appointed to that position He will fill the office until the next election of officers

A special meeting of the union will be held on June 7 for the first nominations of officers The second nomination will take place on June 21 and the election is to be held July 5.

The co-operative markets all kept open yesterday while the non-union butchers enjoyed a holiday The union is planning for a big picnic on Labor Day, however.

BUTCHERS BOWL.

Several members of the Butchers' Bowling Club went to the Oakland alleys last night after the meeting and practiced at their favorite sport There were two hotly contested games between Carl Scheithe and Henry Schaffer in which the former was the winner, the first time by a score of 183 to 168, and the second by 204 to 190

A challenge for a match was sent to local No 115 of San Francisco some time ago but no reply has been received. The Oakland boys think their rivals are afraid of being shut out by the champions here

TO ADDRESS UNIONISTS.

The third in a series of talks to union men and women will be given Sunday evening, May 21, at California Hall, under the auspices of the District Council of Carpenters The lecturer will be the Rev Dr. Charles T Walkley, the pastor of St. Paul's Church of this city.

WANT EMERYVILLE PROPERTY

ATTEMPT BEING MADE TO GET RACE TRACK AND ADJOINING LAND.

SAN FRANCISCO, May 18.—There are rumors about the streets that an effort is being made to acquire, presumably for railroad purposes, a considerable tract of land adjoining the bay shore in the vicinity of Emeryville. The people who are obtaining the options on the property are endeavoring to keep their operations as secret as possible, and in this are apparently meeting with considerable success. It is said on good authority however, that the property is wanted for railroad terminal purposes, but whether by the Southern Pacific, Santa Fe or some other company is unknown.

The Oakland race track and the property embracing Shell Mound Park are included in the tract which the railroad agents are seeking to purchase The race track and Shell Mound Park are owned by Mrs Margaret Mee or this city. Both properties are under lease, the California Jockey Club's lease having some fourteen years more to run, while the lease on the park will expire about four years hence.

Mrs. Mee, when asked about the negotiations, admitted that certain people were anxious to acquire certain property at Emeryville that rests in her name, and it was her understanding, she said, that it was wanted for railroad purposes. She was disinclined to define specifically just what property the railroad agents were after, or to say just how far the negotiations had progressed. She explained that, in addition to the race track and the Shell Mound Park property, she owns some adjoining land, not under lease, which the persons in question seem anxious to purchase.

Captain A. H. Payson, assistant to the president of the Santa Fe, said yesterday that the Santa Fe is not after any property at Emeryville. It now owns a tier of half-blocks reaching from San Pablo avenue to the bay, which is more than sufficient, so Captain Payson asserts, to meet the Santa Fe's needs in that locality for many years to come. Southern Pacific officials also deny that the Southern Pacific is after the property in question. It has been suggested that the Western Pacific may have some new plan for a line into Oakland and is figuring on establishing a terminus at Emeryville. Western Pacific officials admit that the company is bent on building a direct line between Oakland and Sacramento, in addition to the line via Stockton, which will find its entrance into the city by way of Third street. They profess to know nothing, however, about the bonding of property in the vicinity of Emeryville.

DIVORCES WANTED

Charging that her husband has willfully neglected to provide for her and has deserted her, Belle Lasher brought an action of divorce against Aaron Lusher, whom she married in the city of Beaver, Penn., in 1895. There are two minor children as the result of the union, of which she asks the custody. His desertion of her, she says, began in January, 1903.

WANTS THE CHILD.

William E. Laro has filed a petition with the courts to have a divorce decree granted Lulu F. Laro in this county in 1895 so modified that he no longer will have to pay $7.50 a month alimony, and also that he be given the custody of the child. He now lives in Sacramento, and he says that since the granting of the decree his former wife has remarried and that her name is now Lulu F. Bevord. He states that the alimony is no longer necessary and also that the mother is not now the propet person to have the custody of the child.

DOESN'T WANT THEM TO INHERIT IT

The will of the late Charles Anderson, whose name was also Charles Danielson, of Altamont, has been filed for probate. He came originally from Kalmer Hogsby, Mo., and states in his will that he left with his brothers and sisters when he left there thirty-seven years ago the sum of $2500, which he had inherited from his father. He now wills them that loan, but states that all the money belonging to his estate here is to go to his good friend, John Eagan of Altamont.

To Mrs. Michael Dolan of Livermore he gives $1000 and he leaves $500 to W. H. Wright of the same place. All the rest of his estate, however, of every kind and nature, he leaves to Eagan, and then states:

"I wish it to be perfectly understood that it is not my wish, will or intention that my brothers and sisters or their heirs shall inherit any of the property of which I die possessed in the State of California, but that it be disposed of as hereinbefore mentioned."

BOYS LIKE BURGLARS.

A A swarm of nine little urchins, ranging in age from 6 to 10 years, made a call on Lancaster's hardware store at the corner of Fifteenth street and San Pablo avenue this morning and helped themselves liberally to pocket knives in the showcases.

For a few minutes it was a veritable feast. Knives ranging in value from 25 cents to $5 were hurriedly swept into the pockets of the young visitors whil the proprietor's back was turned.

When the proprietor finally confronted the boys and asked what they wanted, each of them looked so guilty that they gave themselves away.

A hasty glance revealed to Mr. Lancaster what had taken place. He called a policeman and had the boys taken over to police headquarters, where the life was nearly scared out of them.

The boys vigorously called for their mothers. After being put through a course of "stunts," which older criminals would call "sweating," the nine bad little boys were allowed to go, after they were compelled to disgorge the pilfered pocket knives.

A Good Suggestion.

Mr. C. B. Wainwright of Lemon City, Fla., has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic and cholera morbus by taking it in water as hot as can be drank. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. For sale by Osgood Bros., corner Twelfth and Washington streets and corner Seventh and Broadway.

KNIGHTS TEMPLAR HOLD PUBLIC INSTALLATION.

Senator Perkins and Governor Pardee Take in Exercises at the Macdonough.

Last night in the presence of a large assemblage of men and women, which filled the Macdonough Theater, the officers of Oakland Commandery No. 11, Knights Templar, for the year 1905-1906 were installed. It has been several years since the commandery has installed its officers publicly, and the ceremony last night was in its beauty and impressiveness a revelation to a few present who had never witnessed similar events.

The installing officer was Past Commander W. H. Craig. Solomon Lathrop acted as marshal. He discharged his duties with skill and grace.

Following the installation addresses were made by United States Senator George C. Perkins on "Our Country," by Governor George C. Pardee on "Our State," and by Edward H. Hart of Berkeley on "Templarism."

The music was very enjoyable. The quartet consisting of Messrs. Edwin D. Crandall, Ernest H. McCandlish, Lowell Redfield and Knight Templar Harry P. Carlton chanted the "Lord's Prayer" and sang with great effectiveness "Hark! Hark! My Soul" (Sheeley) and "Trust in the Lord" (Handel).

The soloist of the evening, Mrs. Grace Davis Northrup, sang "Save Me, O God" (Bandegger) and "Villanell" (Dell Acqua). One of the most pleasing musical numbers was a violin duet by Miss Madeleine and Master James Hamilton Todd Jr., (a) "Sehnsucht der Senneim" (Svendsen) and (b) "An die Heimath" (Oscar Fuchs). They richly deserved the recall.

The piano accompanist was Miss Beth Howard and the organist J. De F. Teller.

The commandery numbers about 300 members. There were approximately 150 Sir Knights on the stage.

The proclamation, the ceremony by which the marshal proclaims the new officers duly installed, and to conduct the business of the commandery, was the most spectacular part of the whole affair.

In a very graceful speech D. Edward Collins presented W. H. Craig the past commander's jewel.

The following officers for the year 1905-1906 were duly installed:

Commander, E. Sir Rodolph W. Meek; generalissimo, Sir Edward K. Taylor; captain-general, Sir George H. Smith; senior warden, Sir D. Richard Martens; junior warden, Sir Frank R. Ogden; prelate, Sir Edward H. Hart; treasurer, E. Sir D. Edward Collins; recorder, Sir Harry R. Browne; standard bearer, Sir Ralph E. Cotter; sword bearer, Sir A. B. Swauger; warder, Sir Fred H. Hersey; sentinel, Sir Frank X. Z. Marchand; guards, Sir Harry De La Montanya, Sir Constant Meese, Sir W. G. Morley.

The following constitute the escort: Sir Charles E. Ott, Sir J. H. Makins, Sir I. A. Beretta, Sir F. W. Bilger, Sir F. K. Mott, Sir Walter Cole, Sir T. I. Miller, Sir W. E. Logan, Sir James Maclise, Sir E. B. Taylor.

The auditing committee consists of: E. Sir W. H. Phipps, Sir Thomas P. Emigh, Sir George F. Hildreth, and the uniform and armory committee of Sir George H. Smith, Sir D. R. Martens and Sir F. B. Ogden.

The past commanders of Oakland Commandery are: E. Sir Solomon Lathrop, 1880-81-82-83; R. E. Sir George D. Metcalf, 1884-85-86-89; E. Sir James B. Merritt, 1887; R. E. Sir W. Frank Pierce, 1892; E. YSAYE AT THE MACDONOUGH

GREAT VIOLINIST WILL BE HEARD IN OAKLAND TO-NIGHT.

The greatest living violinist is Ysaye, the Belgian. This is not disputed. The music critics of the old world and those of this country concur in the opinion that Ysaye is the legitimate successor Wieniawski, who never had but one superior—the matchless Paganini. Ysaye combines the merits of Vieuxtemps, his master; of Joachim, the classicist, and of Sarasate, the Spanish poet of his instrument. He is the most eclectic violinist that ever lived. His versatility is not less astonishing than his virtuosity. It is not likely that for several generations to come will appear Ysaye's equal. He is by far the highest priced violinist who ever visited the United States. It required an enormous guarantee and a deposit of $50,000 to induce him to cross the Atlantic. He has more than "made good," to employ an inelegant yet forceful expression. He has broken his own record and the records of all other violinists who have toured the United States, from Wieniawski to Kubelik. It is not often that Ysaye appears in any except the large cities, and his visit to Oakland is deemed a most important musical event. It is a foregone conclusion that he will attract an audience of vast proportions at the Macdonough tonight, for there is a lively demand for tickets. Many inquiries have come from neighboring towns, the music lovers of which will help swell the attendance. A program of strength and variety will be presented. It will include certain pieces which are closely associated with Ysaye's fame; certain composition which no living violinist can perform so well as the Belgian can play them. The Ysaye concert is much talked about in local musical circles. The date is tonight. The program is as follows:

Sonata in G Major.....Beethoven
M. Ysaye and De Befve.

Concerto No. 1 G Minor.....Bruch
Allegro Moderato—Andante.
Allegro energico.
M. Ysaye and De Befve.

Etude.....Chopin
Rhapsodie 12.....Lizst
Jules De Befve.

Chaconne.....Bach
M. Ysaye.

Faust Fantasie.....Wieniawski
M. Ysaye and De Befve.

CHURCH WARNED AGAINST WEALTH

BINGHAMTON, N. Y., May 18.—At the seventy-second annual meeting of the New York State Association of Congregational Churches here the committee on applied Christianity has made a report, of which a portion is devoted to the discussion of "The Church and Wealth." The report on this point says:

"We believe the Supreme question before the church today is to teach brotherhood as the only true basis of business. With natural wealth open to the use of all men we believe industrial combination in the interest of economy would develop naturally and with injury to none. We believe the church should guard against all such alliances with institutions or individuals of great wealth as can give color to the charge that th church is under the domination of the rich, or that her ministry is silenced regarding business methods oppressive and menacing to personal independence. It is our conviction that no gifts to cahritable or religious enterprises can atone for the wrong done against society by financial or industrial methods which ignore the natural law that only the creations of wealth are worthy to enjoy or distribute."

CELEBRATE THEIR ANNIVERSARY

NATIVE DAUGHTERS SPEND PLEASANT EVENING WITH THEIR FRIENDS.

LIVERMORE, May 18.—The Native Daughters celebrated their anniversary as a lodge on Monday night at the Masonic Hall. The Native Sons were invited as well as immediate friends and relatives of the members. The early part of the evening was devoted to a short program, prominent among the numbers being a piano duet by the Misses Albertine Bernal and Dolly McKowen and a violin solo with piano accompaniment by Mr. and Mrs. Earl Tumann. Following the program dancing was indulged in until a late hour, music being furnished by Mr. and Mrs. Tumann. Light refreshments, consisting of ice-cream and cake, were served.

SENIORS ENTERTAIN.

The seniors of the High School gave a dance to their schoolmates and friends at the Sweeney Opera House Wednesday night. The hall was well filled with dancers and the united efforts of the class as a committee in charge served to make the affair a social success. Between sixty and seventy people were present.

HAVE A DAY'S OUTING.

Miss Mable Beck was the hostess at an informal picnic held at Cresta Blanca last Sunday. About twenty were present and spent a pleasant day on the Arroyo Valle.

PERSONALS.

Miss Grace Sanderson of San Francisco is spending a week here visiting friends and relatives.

Dr. M./L. Baum of San Francisco is the guest of his aunt, Mrs. Abe Lowenthal, for a visit.

Charles Beck of this place and his brother, Frank Beck of Centerville, spent last week in San Francisco on business.

Jack Towhey is confined to his home with an attack of pneumonia, and though not out of danger, is reported doing as nicely as can be expected.

CATS CAUSE OF WOMAN'S DEATH

NEW YORK, May 18.—An effort to drive away noisy cats, which had gathered under the windows of her apartments in Amsterdam avenue has cost the life of Mrs. Anna Hildebrand. Filling a pan with hot water the woman stepped out upon the fire escape and dashed the water on the feline in the court yards below. Just as she did this the fire escape broke and Mrs. Hildebrand was carried down to instant death.

STOCK COMPANIES FORM COMBINE

NEW YORK, May 18.—Fifteen theater managers of stock companies in cities between Providence, Rhode Island, and Chicago, have formed, at a meeting here, an organization which will be known as the Association of Theatrical Stock Managers, and which will be incorporated under the laws of New York.

Representatives from ten theaters were present and five other houses will be taken in later. Officers were elected as follows:

President, I. Kauffman, vice-president, F. F. Proctor; secretary, A. A. Spitz; treasurer, Colonel Albeugh. These officers, with Corse Payton, will be the directors of the Association. The plan of the combination is that each manager will make a production, which will cover the circuit of the theaters, playing at each house for one week. At the end of fifteen weeks each manager will make a new production and, as the season is to last forty-two weeks, beginning August 26th, it will be necessary for each manager to put on three plays. Economy is said to be the chief object.

KING EDWARD IS A SPANISH ADMIRAL

MADRID, May 18.—Replying in the Senate to birthday congratulation speeches, King Alfonso has expressed the hope that his forthcoming tour of Europe will strengthen the ties of friend, ship, tend to universal peace and thus assist in the reconstitution of the country and the development of its industry and commerce.

'As for that event fraught with happiness for the country and my hearth which you wait with anxious desire," said the King, "I have confidence in God that it will be realized for the good of the nation; for family love is so closely united in my mind with love of my country that I can have no other idea of marriage than that of two people loving and seeking the happiness of the country and its greatness."

King Alfonso has appointed King Edward a Spanish Admiral.

A dispatch from London May 16 announced that King Edward had appointed King Alfonso a general in the British army in honor of the nineteenth anniversary of the latter's birth, May 17.

Other symptoms showing that you need Swamp-Root are, being obliged to pass water often during the day and to get up many times during the night, inability to hold your urine, smarting or irritation in passing, brick-dust or sediment in the urine, catarrh of the bladder, uric acid, constant headache, dizziness, poor digestion, sleeplessness, nervousness, irregular heart-beating, rheumatism, bloating, irritability, worn out feeling, lack of ambition, loss of flesh, sallow complexion.

If your water when allowed to remain undisturbed in a glass or bottle for twenty-four hours, forms a sediment or settling, or has a cloudy appearance, it is evidence that your kidneys and bladder need immediate attention.

VISIT PROPOSED SITES FOR U. OF C. FARM.

Governor Pardee and Other Members of Commission at Haywards.

HAYWARDS, May 18.—Governor Pardee and the other members of the State Farm Commission were in town today to view the three offers of the farmers here as sites for the University farm.

They were accompanied by a delegation from the Oakland Board of Trade and were entertained by the Board of Trade of Haywards.

VISIT SITE.

During the morning the visitors were taken to see one of the proposed sites, that on the Stanton tract.

A luncheon was served at the Haywards Hotel at 1 o'clock and several of the prominent men were invited to attend the function and meet the distinguished visitors.

J. B. Estudillo and J. N. Frank, respectively president and secretary of the San Leandro Board of Trade, were also guests at the luncheon.

OTHER SITES.

This afternoon the commission is visiting the Meek tract and the Sorensen-Harder tract, which have been offered for the farm.

Tomorrow the Contra Costa offer will be examined.

Following is the copy of the letter of acceptance sent by the secretary of the commission to the Board of Trade here:

"Berkeley, May 12, 1905.

"Dr. F. W. Browning, Haywards, Cal.—My Dear Sir: It is with much pleasure that the State commission for the selection and purchase of a University farm accepts your kind invitation, as president of the Board of Trade, to visit Haywards on Thursday, May 18. The commission will plan to assemble at the rooms of the Oakland Board of Trade on Thursday morning, at 9:15 o'clock. Mr. Stearns has informed me that your committee also arranged for a trolley car to be in waiting to take the party to Haywards. The party will consist of the Farm Commission: Governor Pardee, Hon. Aiden Anderson, President Wheeler, B. F. Rush, Ellwood Cooper, Professor E. J. Wickson and myself. Very truly yours,

"V. H. HENDERSON,

"Secretary of the State commission for the selection and purchase of a University farm."

ROBBING RAILROAD

Southern Pacific Company Makes a Discovery at Sparks.

SAN FRANCISCO, May 18.—The office of the paymaster of the Southern Pacific is said to be greatly agitated over the discovery of an attempt at a wholesale looting of the treasury by means of a dummy payroll. The discovery is said to have been made at Sparks, the company's new division terminus near Reno. Upon the arrival of the pay car at that place on Tuesday, according to a dispatch received from Reno last evening, the men in charge of the pay car discovered a wholesale stuffing of the payroll when they started to pay the employes in the yards and shops. The matter was immediately reported to the general office in this city, and the further payment of the monthly checks was ordered discontinued pending an investigation. The pay car returned to Sacramento, leaving many employes unpaid.

According to advices from Reno several thousand dollars was paid out in wages to mythical employes before the men in the pay car discovered the fraud. It is asserted that arrests will follow the investigation now pending.

DISCOVERY OF THE STUFFING.

Some weeks ago the Southern Pacific Company returned to its old practice of sending out a pay car to pay the monthly wages of all employes on the system. The practice of paying employes from a pay car was in vogue for a great many years, but was discontinued two or three years ago in the belief that the system of paying by check had many advantages. For the past two or three years all employes have been paid by check, the checks being made out in this city upon receipt of the monthly pay roll from division headquarters, and mailed to the employes in whose favor they were drawn. Lately the pay cars were put back into service.

The explanation of this move was that the company preferred to have each employe receive in person from the hands of an assistant paymaster the amount of his monthly wage, and thus obviate any fraud that might be attempted through the stuffing of the payroll by unprincipled foremen. It was by requiring the employes in the yards and shops at Sparks to appear personally on the platform of the pay car for their wages that the stuffing of the payroll is said to have been discovered.

Paymaster J. M. Hanford was unwilling to discuss the situation when questioned at his home in Oakland last evening. He would not deny that an attempt had been made to loot the treasury of the company by means of a stuffed pay roll, and contented himself by declaring that he had no statement to make. C. H. Redington, assistant paymaster, was also asked about the attempted fraud, at his home in Oakland last evening, and said he had no knowledge of the matter.

JUDGE SAMUELS TO BE ELECTED

SAN LUIS OBISPO, May 18—The grand lodge of Knights of Pythias convened at 2 o'clock yesterday afternoon, remaining in session until 5 o'clock. The proposition to establish a Pythian home occupied the entire time. No definite conclusion was reached.

The grand temple of Rathbone Sisters was in session yesterday afternoon. The only business transacted was the reporting of committees. The election of officers will occur Friday. It is certain that Mrs. Martin of Stockton will be elected grand chief.

The Knights will elect officers tomorrow. Reliable authority gives the following list of officers who will be elected:

Supreme representative, Judge Samuels of Oakland; grand chancellor, Mayor Clark of Santa Cruz; prelate, J. D. Wagner of San Bernardino; keeper of records and seals, H. Schaffner; grand treasurer, S. J. Little of Dixon; brigadier-general, C. F. McGlashan of Truckee of the uniform rank; trustees—J. R. Sloane, E. de Arman and A. Jordahal.

HE WAS STABBED BY A NEGRO

William McClarins, who attended the butchers' picnic at Shell Mound Park yesterday, was stabbed by an unknown man while he was standing talking to a girl. McClarins' account of the fracas is as follows: "I was talking to a girl and a big, black fellow came up to me and asked me what I was doing. I asked him what it was to him, and then I hit him. When he got up he came at me with a knife. I don't know who he was, for he ran away when I went after him."

McClarins had been at the picnic all day and was just going home when he met a woman at the gate whom he knew and stopped to speak to her. While standing there he was accosted by the stranger and stabbed over the region of the heart, which was only prevented by a rib from reaching that organ. Drs. C. E. Curdis and G. G. Reinle dressed the wound at the Receiving Hospital and McClarins was removed to his home, 877 Twenty-second street.

ANNUAL SESSION OF ALUMNI

GRADUATES OF UNIVERSITY OF CALIFORNIA HAVE NEW BY-LAWS.

The alumni of the University of California held their annual meeting last night at the Mark Hopkins Institute of Art in San Francisco. This meeting marks an epoch in the history of the alumni. The association adopted a new constitution and for the first time in its history now becomes inclusive in a true sense.

Under the new constitution every person awarded a degree by the old College of California and every person having a degree from the University of California, whether given by the professional affiliated colleges and departments or by the academic colleges of Berkeley, is a member of the association. Under the new constitution the membership exceeds 4000 in number.

After the joint meeting of all the old alumni associations adopted the new constitution the meeting of the new Alumni Association of the University of California proceeded to the election of its officers for the ensuing year.

The election resulted in the choice of the following persons: President, G. R. Lukens; first vice president, Mrs. A. F. Morrison; second vice president, Dr. L. Van Orden; treasurer, J. K. Moffitt; secretary, Dr. Haydn M. Simons; counselors—Alexander G. Eells, Miss Anna McNeil, F. A. Perkins, Warren Olney Jr., Frank Ottis, Alfred C. Skaife, Dr. Joseph G. Morrissey, Dr. George McChestney, George Edwards and George A. Merrill.

As the result of this unification of all the alumni the alumni reception and meeting for this year, to be held at the Mark Hopkins Institute of Art, San Francisco, on Friday, May 19, at 8:30 p. m., becomes a meeting of special importance and significance. A very large attendance is expected and every loyal alumnus who can look to the University of California as his alma mater will have the opportunity of joining in one meeting and under one roof to renew his allegiance to his old college.

Under the new constitution all the members of the faculty of the University who are not graduates of the University are made honorary members of the association. President Wheeler and the professors associated with him will attend the meeting and Governor Pardee, himself an alumnus of the University of the class of '79, will also be present.

The Glee Club of the University has been invited specially, and Nob Hill will ring with the echo of college songs and glees on Friday.

Running Down Long?

You and Your Food are a Misfit Sure

It's a relief to feel the sunshine and glow of perfect health, bounding energy and "go" of the successful, brimful-of-spirits man. The joy of living real LIFE will come back when you give your body the kind of food it is mutely appealing for, that from which it can make good the daily waste caused by brain work and exertion.

Suppose you abandon for a time the food which evidently is not properly nourishing you, and go in for a 10 day test and see how near the food expert, who perfected

Grape-Nuts

comes to your case. Drop tea and coffee absolutely and if you want to get to the front by bounds cut your tobacco down to at least one-half.

Now for breakfast.

A little very ripe fruit, a saucer of Grape Nuts (not over heaping teaspoonsfuls with some rich cream poured over it, insist on cream, milk will do as a last resort, but water spoils the delicate sweet flavor), a slice of very hard-baked toast, thinly buttered, and a cup of Postum Food Coffee. No more.

That will carry you until lunch time, when the same articles can be used, and add a little hot clear soup.

Take dinner at 6 or 7 and have a generous portion of meat, only one kind. Cut out the soup and fish, have two vegetables and a Grape-Nuts pudding, a cup of Postum Food Coffee (which will not keep you awake) and one or two slices of buttered toast. QUIT THERE.

Two days thus will open your eyes and 10 days make this good old world seem a happy place again.

It's nice to be happy.

He Told Me That He Would Stop Smoking in Order to Purify Himself Against the Time He Should Kiss Me—Testimony of Society Girl in Breach of Promise Suit.

MAN'S LOVE LETTERS IN COURT.

PITTSBURG, May 18—Miss Edith Isabella Gibney, a prominent society girl of St Louis, went on the witness stand, the first witness in her $50,000 breach of promise suit against Klaus J. Steiner, of Pittsburg It promises to be one of the most sensational cases in the history of Pittsburg, not excepting the famous King-Clarke suit of years ago Steiner is one of the best known and wealthiest young consulting engineers in Pittsburg, and Miss Gibney is also as well known here as in St Louis. There is one negro on the jury

A book about two feet long and fully a foot wide and eight inches thick has been made up of the letters which Steiner sent to the plaintiff, and if the fifteen letters which were read to the jury before court adjourned are fair samples of the other 200, it would seem that Steiner was an ardent wooer by mail They are full of poetry and poetical allusions

It is estimated that it will take two days to read all the love letters, and the defense has about one hundred of Miss Gibney's letters to Steiner, which will be produced in court. Miss Gibney was on the stand three hours and her testimony was not concluded

She testified in a straightforward way. Her contention is that she was engaged to be married to Steiner, that the day had been set, but that he broke off the engagement at the solicitation of his mother, father and sisters whom she has also sued for another $50,000. Miss Gibney alleges that she was brought to his father's home by his relatives, who kept her there a week underthe guise of friendship, and after she had gone, told untruths about her to her fiance.

"They treated me very meanly" said Miss Gibney in one part of her testimony. "Why they woul not allow the defendant and myself to sit together in the parlor in the evening without a chaperon, saying it was not nice"

This remark, made most innocently, caused laughter in the court. In another place Miss Gibney in describing the actions of Steiner when she consented to marry him, said

"He told me that he would stop smoking in order to purify himself against the time he should kiss me"

Miss Gibney, in confessing that she had not been kissed by her fiance when she promised to make him a happy bride, looked so pretty that even the jurymen shifted about in their seats and glared at the offending Steiner

Miss Gibney further testified "When the defendant came to St. Louis to see my mother and ask for my hand he got down on his knees to her and begged for me, saying he would take the best of care of me through life and mother promised that she would give me to him"

Bead Dog-Collars Hide Summer Tan

The girl who tans easily in summer has long been disquieted by the strange contrast between her white shapely neck and her burnt face Especially is this true of the girl who summers at the seaside or spends much of her time rowing or canoeing on the inland lakes. Her appearance in a low-necked gown at the evening hop has given her no small amount of annoyance. But at last Dame Fashion and the manufacturers of novelties in summer jewelry have united to furnish her with relief in the form of high throat ornaments, notably the dog collar, which completely effaces the dividing line between pure white neck and Indian-hued face.

The dog collar is no longer the possession of the rich woman only. When built from precious gems it finds a place in the society matron's jewel case alone, but in less extravagant, prettily bizarre patterns it should find a corner in every summer girl's equipment

Most of these throat ornaments are built from strings of beads, and barred with long stiff clasps. The pearl dog collar, perhaps, leads in favor in the less costly imitations, as it does with the real gems. Large and small pearl beads are alike employed in these collars, with usually four rhinestone bars, one on either side of the neck, and two in the back, where the collar closes One collar built from eight strands of pearl beads has a rhinestone clasp directly in the middle of the collar which is an inch and a half wide and two inches long. Another collar which does not cover so much of the neck has two strands of large pearls held apart every two inches by two large rhinestones, while an orchid shaped pendant of rhinestones hangs from it in the front.

Coral beads and pearls make a very dainty combination, such as a strand of coral alternating with a strand of pearls or a zig-zag pattern studded with coral having pearls scattered among them Pearl bars are also employed for holding strings of coral in place.

Closely allied to the delicate colorings of pearl beads are opalescent glass beads. These are very small, and as the light strikes them they show all the colors of the rainbow. Ten and fifteen strings of these are needed to make up a single collar, and the usual rhinestone bars shape it to thethroat.

Beads to match any frock are employed in these neck bands Particularly pretty are those built from turquoise blue beads. A collar of medium sized beads shows a row of blue held apart by a rhinestone of the same size between every third blue bead. Large beads have tiny rhinestone drops scattered among them

Heavier collars show flower designs in rose gold, intercepted by large imitation gems. These are from an inch and a half to two inches high. At a May party a very stunning matron wore a collar of rose gold pansies, having a small amethyst in the center and a rough-cut amethyst joining each of the flowers

Very Oriental looking is a collar of thin silver bars in four strands, with a small Egyptian harp connecting each link From this hangs a large silver harp thickly set with tiny amethysts, and having many silver pendants dangling from it Jet, both dull and shiny, is decidedly in vogue for the collars Four strands of flat jet buttons form the throat covering of an especially noteworthy example. At the center of the collar these flat buttons meet in a V-shape, and make an odd but striking ornament for the upper portion of the bodice These jet collars are worn over a high-necked waist as well as with decollete gowns.

The ambitious girl will not find these collars beyond her means. A bunch of beads in any of the colors can be purchased for ten cents, and the rhinestone bars will not cost over a couple of dollars

LAW IN OREGON PROVIDES FOR WHIPPING WIFE-BEATERS

PORTLAND Ore, May 18—The "whipping post law" passed by the session of the Legislature January last for the punishment of wife beaters, goes into effect today in this State

The new law provides that a man convicted of wife-beating may be punished with whipping, not exceeding twenty lashes, but this is only an additional punishment and not the exclusive punishment for the crime

The old punishment by fine or imprisonment is still in effect, under the new law

According to the new law, the whipping is conducted within the walls of the County or City Jail, and by the Sheriff of the county or by a regularly appointed policeman, as the case may be

And last but not least, a hat box for summer millinery, covered with cretonne to match your bedroom furnishings There are really four boxes in one held in a frame of enameled wood. The lid of each is raised slightly, and the front droops down to expose a stick on which the hat rests.

GUEST OF HONOR.

Mrs. F. B. Ogden, curator of the living writers' section of Ebell, was the honored guest yesterday at an elaborate luncheon planned by the members of the section.

The tables were arranged in an immense T, and at the center of the cross-piece Mrs. Ogden was seated, with Mrs. J. B. Hume, Ebell's president, at her right, and Mrs. John Bakewell, general curator, at her left.

Mrs. W. E. Montgomery was the clever toastmistress, and in her opening remarks referred to the origin of the toast in the times when the loving cup went round the table before the fear of what the German doctors call germs; the Paris doctors, parasites, and the Irish doctors, microbes, brought individual glasses into use. We could see, taste, touch and smell the glass of wine, but we could not hear it, hence the klinking of glasses gave the five senses.

The toasts were mostly original, some in verse, and the first one by Mrs. Vandegraw was responded to by all standing to the air of our national hymn. One was to the high high priestesses, the high priestesses and the priestesses of the temple of Ebell." All were to officers and members, and women in general, but one, "To the absorbing work of the Great Author—man, of which there is a large edition and every member should review a copy."

Mrs. J. B. Hume spoke of the section work as the foundation of Ebell and the section workers as the life-blood. Mrs. Bakewell, curator of curators, added to this the encouragement of the influence of strong sections like the Living Writers.

On behalf of the section Mrs. Montgomery presented the curator with two volumes of Henry Van Dyke's works. The curator thanked her associates in a few happily chosen words. Mrs. Montgomery was also remembered by the section a handsome book being presented by Mrs. Albert Smith.

Among those who enjoyed the affair were: Mrs. J. C. S. Akerly, Mrs. C. W. Armes Jr., Mrs. J. A. Beckwith, Mrs. A. W. Burrell, Mrs. John Bakewell, Mrs. E. H. Benjamin, Mrs. H. Cameron, Mrs. A. FASHIONS IN LEATHER

Lucky is the animal that escapes woman with his hide whole. Card-cases, purses and hand-bags must match, and the sets are to be found made from the skins of all sorts of animals. The elephant has given of his great skin to bring women joy. An elephant set sells for $16.50.

English society women have adopted the "Lucky Pig" as a symbol of good fortune. They are buying purses made pig-shape, and brooches and ornaments of this kind are plentiful. The purses are made individual by having the eyes of the birth month jewel. This is supposed to increase the good fortune.

Parisian millionaires are attempting to revive the nose veil.

Modistes are contenting themselves with the introduction of the new-old leg o' mutton sleeve, tight at the wrist and most bulging at the wrist and most bulging at the shoulder.

Spangles, sequins, paillettes of all colors, tints and sizes are making butterflies, indeed, of the women who keep up with fashion's fancies. Lace gowns and laces have the design of the flower traced by an outline of paillettes. Steel and crystal are the favorites for laces. Opalescent shades are popular. Sometimes only the flounces of gowns are spangled.

Paris has at last yielded to the milliners, and women who attend the opera are permitted to wear bonnets. The bonnets are supposed to fit closely and not to interfere with the men behind them. It looks as if the milliners were losing money by the non-hat ruling of the theaters. If the style becomes universal, it is only a question of time before the big hat will again bear destruction in its wake.

A girdle boned at each side of the waist and made with a decided droop in front and behind makes the waist of a large woman look smaller.

Glints of steel are to be seen on leather bags and belts.

Tulle chous in all colors can be purchased ready made.

An odd little silver purse is made to represent an owl's head.

Gold bracelets are now shown in plain bands, some an inch wide.

Little birds whisper that green will be the next color fad of American women. Emeralds will follow as a jewel fad, appearing in real and imitation in bracelets, in rings and collars. Green beads will be popular. White will be worn with green during the spring and coming summer. Green collage will be more popular than ever. New shades will appear in dress materials, velvets and ribbons.

LITTLE HINTS.

Paper bathrobes are the latest. They are supposed to dry the body rapidly and prevent catching cold.

The up-todate feather scarf is flung back over the left shoulder, like the fur throw-tie of the winter.

For him there are figured white waist-coats which hint at hand embroidery as the next step in his toilet.

The wonder is how we ever got along without these persuasive scraps of muslin and lace yclept lingerie blouses.

Three rows of fancy straw braid for a brim and a piece of wide pompadour ribbon for a crown—and there's a hat.

Long tunic effects, fifteen inches above the skirt hem, prevail in the spring gowns bearing the stamp of foreign makers.

Huge thistles in heavy work on a delicate background of Chantilly make one of the most striking lace patterns of the year.

Some of the new sashes are made of the loveliest shaded ribbons. Not the flimsy shaded ribbon that came out a couple of years ago and flourished for a little while—but a new ribbon, the softest, richest satin, which shades from white to a clear turquoise blue, yet when crushed up into a girdle seems only like a blue that has a thousand lights and shades in it. It comes in other colors, of course—the softest corn-color, true rose-pink, and even in grays and tans, which are even more illusive than the more definite colors.

A nice gift for the man who travels is a bag to hold soiled cuffs and collars. An aristocratic affair of this kind is of brown suede, silk lined. It has a circular, flat bottom, and closes at the top by means of suede thongs run through cuts in the neck of the bag. A more modest bag could not be made of chamois and given a piece of cardboard for the stiff bottom; the making of such a bag is not difficult. And it really is one of the most useful things a traveler could have.

TRANSPLANTED IRISHMEN.

(From the New York Press)

"You call yourself Brown by lineal descent? How can that be possible when your ancestor on your father's side was an Irishman of the name of Mike Barligan?" "What makes you say that?" "Because my name is Shoemaker and my ancestor also was an Irishman and his name was McTavish. I happen to have some valuable records, which tell of thousands of Irishmen who were sent to England after the time of the Lord Proctor, about 1660, and required to give up their Irish names for such names as White, Black, Brown, Carpenter, Shoemaker, Smith, Jones, etc., when they came to America and settled down in Virginia One-third of the American soldiers in the war of the revolution were of Irish birth or descent."

GIRL'S ARGUMENT FOR POLYGAMY.

(From Leslie's Magazine)

A young Mormon woman, modest and intelligent, with clear, honest, gray eyes, deplored the prohibition of polygamy. "We lose something the last generation had," she said "Our family would have seemed lopsided with only one mother. And was it not worth something to us children that we had to divide everything—even our father? She said she would not object to marrying a polygamist if she loved him, though she confessed she would a little rather be the first wife When asked if he would be willing to have his daughter marry a plurist, her father said he would prefer it. She would be conforming to the laws of the church, besides which she would be marrying a tried man, one already proven to be a good husband.

TRIUMPH OF CIVILIZATION.

The Indians of Kansas are now fully civilized. The act was completed when the United States Supreme Court recently decided that they had the right to line up in front of a bar and drink whiskey just like white folks.—Kansas City Journal.

BLOCKING THE ROAD TO MANDALAY.

Owing to the abnormal rise of the river near Mandalay, crossing of vehicles between the main line and the Mu Valley Railway has been temporarily suspended.—Labore Tribune.

Extracted From Forest Plants.

Nature's laws are perfect if we obey them, but disease follows disobedience. Go straight to nature for the cure, to the forest; there are mysteries here that we can fathom for you. Take the bark of the wild-cherry tree, the root of mandrake, stone root, queen's root, bloodroot and golden seal, make a scientific, non-alcoholic extract of them with just the right proportions and you have

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY.

It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this vegetable extract and alterative of the greatest efficiency.

Just the sort of spring remedy you need to make rich, red blood, and cure that lassitude and feeling of nerve exhaustion. Dr. Pierce's Golden Medical Discovery bears the stamp of PUBLIC APPROVAL and has sold more largely in the past forty years than any other blood purifier and stomach tonic. The refreshing influence of this extract is like Nature's influence—the blood is bathed in the tonic which gives life to the blood—the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which has accumulated during the winter. Dr. R. V. Pierce, the founder of the Invalids' Hotel and Surgical Institute, and a physician of large experience and practice, was the first to make up an ALTERATIVE EXTRACT of roots, herbs and barks,

Without a Particle of Alcohol or Narcotics,

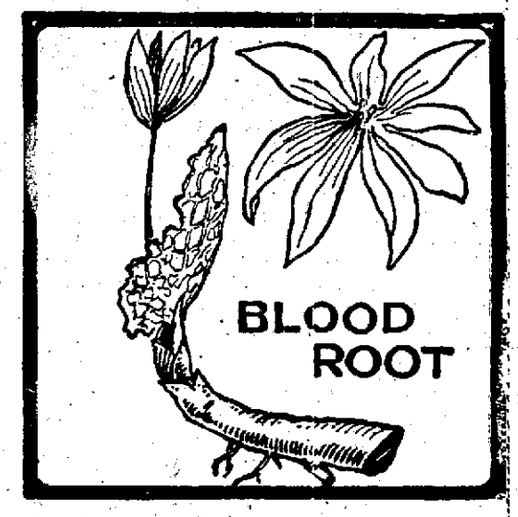
which purifies the blood and tones up the stomach and the entire system in Nature's own way. The "Golden Medical Discovery" is just the tissue builder and tonic you require when recovering from a hard cold, grip, or pneumonia. No matter how strong the constitution our stomach is apt to be "out of kilter" after a long, hard winter; in consequence our blood is disordered for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body. If you take this

Natural Blood Purifier and Tonic

you will assist your system in manufacturing each day a pint of rich, arterial blood, that is stimulating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people experience at this time of the year is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue." Dr. Pierce's Golden Medical Discovery CURES all blood humors as well as being a tonic that makes one vigorous, strong and forceful. Dr. Pierce's Golden Medical Discovery

STANDS ALONE

as the one medicine for stomach, liver and blood disorders that has the ingredients printed upon the wrapper of every bottle leaving the great laboratory at Buffalo, N. Y., which CURES in natures own way; not only in respect to its ingredients but also as the only spring tonic and reconstructive which absolutely contains NO ALCOHOL.



METCALF WILL SOON BE PROMOTED.

Secretary of Navy Morton Will Resign and Oakland Man Will Succeed Him.

WASHINGTON, May 18.—A definite decision has been reached in the case of Secretary of the Navy Paul Morton, fixing the date of his retirement from public life.

He announced recently that he would not retire until autumn. He was mistaken. It is intended he shall leave the Cabinet within six weeks.

This meets the approval of both Secretary Morton and President Roosevelt.

Secretary Morton does not like official life, but he refused to resign while under fire, and the President sympathized with him. What will happen to Secretary Morton after he leaves the Cabinet is not known, but he will not be prosecuted in connection with the Santa Fe case while he is in the Cabinet. The interest of the administration ceases at this point. If a Grand Jury should indict him it will be as Paul Morton, not as the Secretary of the Navy.

How near Secretarly Morton is to leaving the Cabinet is indicated by the fact that his successor is said to have been determined upon. The portfolio, according to rumor, will be offered to Victor H. Metcalf, Secretary of Commerce and Labor. It is a post Secretary Metcalf always wanted. He was slated for the Secretaryship of the Navy when the President first offered him a place in the Cabinet. But the President also wanted Secretary Morton as an adviser.

Secretary Metcalf has done excellent work in his present office and has satisfied the President. He was a member of the Naval Committee of the House when he served in Congress and evinced intelligent interest in the development of the navy. He believes, with the President, in a big navy.

Very positive statements were made today that Paul Morton, Secretary of the Navy, who has announced his intention of retiring from the Cabinet in October, at that time will become a member of the banking house of Redmond & Co. of 41 Wall street.

SPANIEL IS WON BY WILLIAMS

VALUABLE DOG DONATED BY MRS. W. C. RALSTON GOES TO HORSEMAN.

It was with difficulty that one could gain an entrance yesterday afternoon to the Broadway store of the Pierce Hardware Company, where the drawings were held for the prize cocker spaniel puppy, Nappi, donated by Mrs. W. C. Ralston for the benefit of the Oakland Humane Society.

The drawing was in the nature of a society event and many leading women in social and charitable circles were present to witness the event. In all, about 400 tickets were sold and they were in demand up to the time the drawing began.

Thomas H. Williams—always lucky—drew the winning number, which was 225, and the valuable puppy will therefore go to him. Miss Mildred L. Ismon of San Jose drew the numbers.

Fifteen numbers were first drawn from the receptacle where they had been placed for the purpose. From these fifteen tickets nine were drawn, then five, then three, and finally one, the last one proving to be No. 225, which was held by Thomas H. Williams.

The numbers of the first fifteen tickets drawn and the respective holders were: Mrs. Fritz Hinckley, 326; Thomas H. Williams, 250, 225, 402; Mrs. Knight, 300; Mr. Lenhart, 38; Mrs. A. P. Holland, 362; Mrs. E. ... Belle, 371; Mrs. J. H. Spring, 414; R. T. Harding, 126; Charles Flint, 282; F. E. Miller, 249; S. Howard, 197; George H. Ismon, 110; B. S. Howard, 398.

Nappi is a male puppy, sired by Champion Hampton Promise, the winner of thirty-seven prizes and trophies, many of which have been on exhibition at the store where the drawings were held. The mother of the puppy was Blight's Wootsie. The breeding of the canine, its exceptional beauty and the social interest taken in the affair caused the large crowd to assemble at the drawing and no keener interest could have been taken in the result. The Humane Society is accomplishing great results in Oakland and the good work will be aided by a handsome profit realized on the raffle.

OLD JED PROUTY A DRAWING CARD

There is something about a good, clean, rural comedy, such as "Old Jed Prouty," that appeals to theater-goers of all classes. This classic of its kind is proving one of the most popular bills that the management of Ye Liberty have provided for its patrons for many months and that pretty theater is enjoying well deserved success. The company which has been selected to portray these famous roles is one of the best that could possibly be gathered together and the fun and merriment provided by George Woodward, Elmer Booth, Orral Humphreys, Frank Bacon, Harry Mestayer, Lillian Albertson, Oza Waldrop, Minn Gleason and Baby Maitland never ceases from beginning to end. One of the most amusing features of the performance is the singing of the village quartette of the "latest" songs. Next week the attraction will be the promised revival of "Mizpah." Seats are now on sale.

METCALF IS NOT WORRIED

TAKES NO STOCK IN THE "FEAR AGAINST THE YELLOW PERIL."

NEW YORK, May 18.—Secretary Metcalf says he has no fear of the "yellow peril" in the aspect that is now giving concern to Western farmers and fruit growers.

A great agitation is under way in California and other States on the Pacific Coast against the Japanese laborers, in an effort to have them excluded from the United States, like the Chinese. It is alleged that the Japanese are running American laborers out of business on the Coast. They were imported years ago in great numbers to work on the fruit plantations. They were hired through padrones and soon controlled the field. Then the padrones raised prices and where protests were made quickly but effectually boycotted the "kickers." Now no white men can be had for this work. Lately the Japanese have taken to city pursuits and now one padrone has a string of 200 boot and shoe repair shops. Workingmen on the Coast are alarmed, and are developing sentiment favorable to Japanese exclusion laws.

Secretary Metcalf, who is a Californian, says he takes no stock in the "yellow peril" cry and declares that the main trouble is with the white men. He thinks if the latter were willing to work in the fruit districts they could have all the employment they desire.

NEWS OF THE WEEK AMONG THE LODGES.

Fraternal Organizations Are Rolling Up Their Membership Rapidly.

FRATERNAL BROTHERHOOD.

Fully 150 members were in attendance at the closed meeting of Oakland Lodge No. 123, T. F. B., held in Maple Hall Thursday evening, which was one of the most enjoyable the lodge has yet held. A brief business session was held in the early part of the evening, at which, besides other important business, eight candidates were initiated. The picnic committee decided to join with the Fraternal Brotherhood band in San Francisco, which gives its picnic on June 20, instead of giving a separate one. At the conclusion of the business session dancing and whist were enjoyed in the upper hall. Several new members were added to the whist club and all enjoy the friendly rivalry for the prizes given at the end of each month.

At 11 o'clock the grand march was formed and all adjourned to the banquet hall, where ice cream and cake were served, after which dancing and whist were resumed until midnight. Good music is always the rule at these meetings, as Mrs. Fred Helnemann, the lodge musician, presides at the piano.

The regular open meeting will be held this evening, and as usual many friends are looking forward to it with pleasure.

On the following meeting night, May 25, the private masquerade ball will be given. A delightful evening is promised and several valuable prizes are to be awarded to those wearing the best costumes. It is the wish of the committee in charge that as many as possible will mask.

Many other pleasurable events are being planned by the entertainment committee to take place in the near future.

BEN HUR COURT, NO. 6.

Ben Hur Court No. 6, Tribe of Ben Hur, held its regular business meeting at Ben Hur Temple Monday evening. Judging from the enthusiasm displayed at this meeting the members may look forward to a second banner year. The next business meeting will be held Monday evening, May 22, at the Ben Hur Temple, Broadway.

BROOKLYN LODGE, F. AND A. M.

Brooklyn Lodge No. 225, F. and A. M., at East Oakland, will confer the third degree Tuesday evening, May 23.

ROYAL ARCANUM.

At the next regular meeting of Sierra Council No. 1642, which occurs next Monday evening, prizes will be awarded to the winners of the winter's whist tournament, and also for the last two evenings of the series.

Preparations are under way for the Royal Arcanum day card party, which promises to be a great success. Any members of the Royal Arcanum who may be visiting in Oakland next Monday evening are cordially invited to attend the meeting, which opens promptly at 8 o'clock in the Foresters' building, corner Thirteenth and Clay streets.

AMRAM ENCAMPMENT.

The next regular meeting of Amram Encampment No. 95, I. O. O. F., will be held at Eleventh avenue and East Twelfth street Thursday evening, May 25, at 8 o'clock, when the seven elected brothers will be instructed in the mysteries of the patriarchal and golden rule degrees. Members of Golden Rule and sister encampments are cordially invited to attend.

On the 13th inst. the Amrams attended the instituting of Contra Costa Encampment No. 99 at Point Richmond and were royally entertained by the good brothers and sisters of the subordinate lodges. After the installation of the officers the team of No. 95 conferred the patriarchal degree on twenty-four candidates, the efficient work being heartily applauded.

CALANTHE TEMPLE.

Calanthe Temple No. 6, Rathbone Sisters, gave one of its old-time entertainments and dances Friday evening at Woodman Hall. It was an enjoyable affair, which fact was testified to by the large crowd that attended. Those who helped to make the evening one of enjoyment were little Calanthe Bractel, Miss Reeder of San Francisco, Misses Virginia Valladay and Fannie Fraters, Sisters Cora Langridge and Lillian Ridge. Calanthe Temple seems to have taken a new lease of life since the convention. It will give an entertainment and dance for the enjoyment of its members and their friends once a month.

OAKLAND LODGE I. O. G. T.

Last Monday evening Oakland Lodge, No. 162, I. O. G. T., held an interesting meeting at Pythian Hall. Two candidates were received into the Circle of Unity. The Committee on Resolutions was appointed to draft a fitting memorial to be sent to the family of our departed sister, Miss Laura Schmidt.

Next Monday evening the brothers of the lodge will give the program for the Good of the Order. Visiting members from other lodges are welcome.

VIKING LODGE I. O. G. T.

Viking Lodge, No. 126, held its regular meeting last Saturday evening at Pythian Hall. The lodge is larger by one. The initiation and business is conducted in the Swedish language. The following is the program given for the Good of the Order: A talk on the Northern Lights, Bro. Hanson; reading an article on Good Templary from the Vestkusten, by E. Freedlund. The article was written by a member of Viking in the issue of May 11. Recitation, A. Lundell; piano, A. Nelson, and a song by Miss S. Anderson.

On the evening of the 27th inst., an open meeting and entertainment will be given.

DIRIGO LODGE K. OF P.

Dirigo Lodge, No. 224, has been very busy of late attending to matters of importance connected with the grand lodge now meting at San Luis Obispo, the proceedings of which are being watched with much interest. At its regular meeting last night much business was disposed of. The sick were reported doing well, but all were sorry to hear of the death of Mrs. Downing whose husband is a member of this lodge and he has the sincere sympathy of every member.

The concert and dance given on ladies' night of the 10th inst., was a decided success in every respect, the hall room was artistically decorated and every number on the program was well rendered and Bro. Flanery, the new member, made a decided hit.

The floor was cleared by 10 o'clock and dancing was participated in by all present and all expressed themselves as having spent a delightful evening. Dr. Mehrmann being stage manager and Bro. Book scene shifter. A large delegation of Rathbone Sisters were present from Nos. 6, 7 and 47.

Mr. Van Boskirk of Sana Barbara paid the lodge a visit Tuesday evening, and the team held a rehearsal.

Bro. Reed and wife leaves May 27th for a four months' trip to Europe. Next Tuesday evening it is expected the third degree will be given. Visitors welcome.

MAPLE LEAF LODGE.

Maple Leaf Lodge met in regular session on Friday evening the 12th inst., at Foresters' Hall, Thirteenth and Clay streets, President H. A. Luttrell in the chair, there was a good attendance of members and several candidates were initiated into the order. The drill team added very much to the effectiveness of the ceremonies and received a great deal of praise from the members of the lodge for their work.

Friday evening the 19th inst., Maple Leaf Lodge gives a "Hard Times" party at Foresters' Hall, making a charge of twenty-five cents for admission, the invitations issued were all taken up a week ago, but in the absence of a regular invitation card, the personal recommendation of a member of the lodge, or the member's private card will be sufficient guarantee to admit. Every visitor will be liable to a fine if the "hard times" idea is not carried out, and any attempt at fine dressing will be costly to the wearer, shined shoes, "bled" shirts, white collars, party dresses and such things are distinctly frowned upon and will have to be suppressed. Grand march at 9 a. m.

WOMEN OF WOODCRAFT.

Oakland Circle No. 266, W. of W., will initiate a class of candidates Saturday evening at Woodmen Hall, and a great many other items of importance will be brought up. Thursday evening the neighbor who went to Los Angeles to attend the grand circle session was the guest of honor at Spruce Circle in Alameda, and a very delightful evening was spent.

Tonight Past Grand Officer Dr. V. A. Derrick, the delegate to Los Angeles and the team will be entertained by Alma Circle in East Oakland, and the evening is looked forward to with great pleasure.

OAKLAND TENT NO. 17.

Oakland Tent No. 17, Knights of the Maccabees has completed arrangements for its monthly social dance in Maccabee Temple next Monday evening. A great many invitations have been issued and the committee expects that a large number of members and their friends will attend.

UNCAS TRIBE, RED MEN.

Uncas Tribe has planned an exceptional whist tournament for the benefit of its degree team. This tournament will be held Monday evening, the 5th of June. There will be a fine assortment of prizes, separate check-rooms for the ladies and gentlemen, where their things can be left in safety, and many other features which will stamp the affair as unique. The arrangements are in the hands of Moltke Schafer, James B. McKeon and William E. Palfreeman.

The tribe sincerely regrets that the health of Brother H. W. Clark's wife is such that a change of climate is necessary. The members will miss Brother Clark's presence, but we all join in hoping that the change may benefit his wife to such an extent that they may both return in a short time.

The degree team will hold its regular drill on the 19th and every member is requested to be on time.

PROHIBITION SPEAKER.

Arrangements have been made for Hon. Oliver W. Stewart to speak in the chapel of the First Presbyterian Church, Oakland, this afternoon, at 2 o'clock. Mr. Stewart will then be en route for a big meeting being worked up for him in the Farragut Theater of Vallejo. Yesterday he was in San Jose at an all-day meeting.

Those having Mr. Stewart's meetings in charge consider them to be the most successful ever held in California in an off-year by a Prohibition speaker. The success of the afternoon meetings is especially noteworthy, some of them exceeding the evening meetings in attendance and results. Preachers and laymen unite in enthusiastic praise of Mr. Stewart's masterly handling of a question which frequently provokes heated controversy. His fair-minded addresses are appreciated by all who hear him.

THE AMERICANS.

This vigorous patriotic fraternal order is having wonderful success all over the State in building up a substantial membership, and especially is this true of the work being accomplished in Oakland and San Francisco. Judge George Samuels, speaker of the senate, has been occupied on several occasions of late in presenting their charter to the several assemblies in San Francisco and San Jose, and on last Friday evening he presented the charter to Oakland Assembly, No. 2, at Ben Hur Temple, 1059 Broadway.

His well-known oratorical powers were fully exemplified on that occasion, as his remarks were at several points in his speech received with vociferous applause.

The judge at length outlined the objects and aims of the order, which was listened to with intense interest by the audience, but when he referred to that grand emblem of freedom, our beloved Stars and Stripes, the applause that followed fairly shook the hall and filled the entire audience with genuine enthusiasm for the principles of the order so ably expounded by Judge Samuels.

Four candidates were initiated, after which Director General Lewis made a few remarks on the good of the order. After the meeting closed refreshments were served in the banquet-room by the lady members.

GARFIELD ASSEMBLY.

Garfield Assembly met last Monday evening at Gier's Hall and initiated two candidates. Next Monday evening, May 22, they will give a social dance, to which all members and friends of the order are invited.

It is bound to be a social and financial success, as the committee in charge are rustlers and have already sold a large number of tickets.

The charter of Lincoln Assembly, No. 7, will be presented by Judge Samuels on Thursday evening, May 25, toward which event the members of Lincoln are looking forward with pleasure and a full attendance is desired.

EASTERN STAR MEETING.

Worthy matrons, worthy patrons, past patrons and past matrons of the Order of Eastern Star of California are cordially invited to attend a meeting at Masonic Temple, San Francisco, Saturday, May 20, at 8 o'clock p. m.

OAKLAND CIRCLE, NO. 3.

A prize whist tournament will be given by Oakland Circle, No. 3, Foresters of America, at Foresters' Hall, Thirteenth and Clay streets, on May 30.

WOMEN OF WOODCRAFT.

On Tuesday evening, May 16, Foresta Circle, No. 515, elected the following officers: Guardian neighbor, Dr. Minnie Pruitt; adviser, Mollie Myers; magician, Marion Park; attendant, Dr. Jane Orr; inner sentinel, Christine Odell; outer sentinel, Emma McLaughlin; captain of guard, Kate Bloom; manager, Lottie Rundell.

Besides the regular election of officers and initiations, the officers and members planned a little surprise in the way of a farewell reception for their popular guardian neighbor, Maude L. Hendrick. With a few appropriate remarks, Captain of the Guard Kate Bloom presented her with a beautiful bouquet of carnations on behalf of the circle. After recovering from her surprise she ably responded, thanking the officers and members for the many kindnesses shown to her and for their ever-ready support during her administration.

Foresta Circle will give a whist tournament for the benefit of the drill team on Tuesday evening, June 6, in Alactraz Hall, West Oakland. The committee, with Neighbor J. Nethercott as chairman, ably assisted by Neighbors Myers, Bloom and Mr. Nethercott, is working hard to make the affair a success.

COURT NEW ERA, F. OF A.

The members of Court New Era No. 165, Foresters of America, gave a banquet Thursday evening at Foresters' Hall in honor of Joe Ennis, who was elected delegate to the Grand Court. Among those present were the delegates of the other courts of Alameda county. The opening remarks were made by Walter Isaacs, chief ranger of Court New Era. M. O'Day acted as toastmaster, and his humorous saying kept the boys in roars of laughter.

Among the many interesting toasts was that of Dr. Tate, who spoke on "Fraternity and the Good Derived Therefrom." Among the other speakers of the evening were Judge Quinn, Morris Isaacs, Al Riehn, Dr. Lewis Emerson, Frank Corrine, Sid Blumenthal, Milton May, P. Wishart, Joe Reboll, etc.

The talent consisted of a very clever recitation entitled "The Red Garter," recited and composed by Judge Quinn. Frank Figone, whose basso voice has been heard by many, rendered some delightful music. Al Windom showed that he was a clever comedian and kept every one laughing. A. Moon in his talkalogue was very original. James McVey played some delightful piano music. F. Nott gave an exhibition in weight lifting and surprised those present by his wonderful strength.

All those present had a good time, it is assured. Court New Era meets every second and fourth Thursday in the month at Foresters' Hall, Thirteenth and Clay streets, and is always ready to receive visiting Foresters and their friends.

BEN HUR COURT NO. 12.

Ben Hur Court No. 12 had a very successful initiation at its hall, 1203½ Seventh street, Friday evening.

The members have been industriously working for the entertainment and dance tomorrow evening, and as there has been a good sale of tickets they anticipate a large audience.

An interesting program by the best of talent is provided. Ben Hur Court's popular orchestra will also take part in the program and furnish music for dancing. Ice cream and cake will be served during the evening.

OAKLAND HIVE, L. O. T. M.

All arrangements have been completed for the whist tournament to be given tomorrow evening, the 19th, by the ladies of this hive at the Maccabee Temple. The prizes, which have been on exhibition in the windows of the Heeseman Clothing Company, are conceded by all to be up to the high standard of prizes distributed at the tournaments of Oakland Hive, No. 14. The committee promises a good time to all who attend.

On the evening of the 26th the regular monthly initiation will be held. At this time several candidates who have been secured under the present dispensation will be introduced.

ARGONAUT TENT, K. O. T. M.

At Tuesday's session of Argonaut Tent, No. 33, K. O. T. M., Sir Knight Commander Arnest was greeted by a large attendance. After the business of the tent was disposed off all members present indulged in a game of whist. On Tuesday, May 30, Argonaut Tent will give a social dance, to which all members of the order are invited.

SONS OF ST. GEORGE.

An enthusiastic meeting was held Tuesday evening by the members of Albion Lodge, Sons of St. George. It being initiation night a large number of members were present. Two new members were added to the membership of the order. They were Brothers G. Zwieker and J. Goldsworthy, who expressed themselves as being delighted to have become members of an order that comprises men of their own nationality and kindred blood. After the general business of the order had been concluded the evening was spent in sociability and jollification. Songs were sung by Brothers Willson, Watson, Williams, Sully and Moore.

Next Tuesday evening nominations of officers will be held for next term and all members are requested to attend.

OAK LEAF, A. O. U. W.

Monday evening there was a good attendance at Oak Leaf Lodge, it being the occasion of nomination of officers. The following nominations were made: Master workman, W. J. Miller and J. Euler; foreman, C. E. Nichols; overseer, J. Coots; guide, J. Isaacs. For the remaining offices the incumbents were renominated. Nominations will close next Monday night, on which occasion it is expected that all members will be present, as matters of great importance will be discussed relating to the cash loan, paid-up policy and extended insurance options that are now granted to the members of the A. James J. O'Toole and M. The teams will be chosen on next Monday evening.

TROUBLE IS STILL UNSETTLED

DISPUTE BETWEEN FAIR COMMISSIONERS AT PORTLAND NOT YET SETTLED.

PORTLAND, Oregon, May 18.—Though both sides express themselves in hope of a speedy and amicable adjustment, the controversy between the Lewis and Clark State Commission and the Lewis and Clark Corporation seems as far as ever from settlement. The latest development is the possibility of the commission's invoking the aid of the courts in its endeavor to maintain its position. At a meeting between a committee representing the State Commission and the Lewis and Clark executive committee, the commission's committee presented the opinion of its attorneys which sustained the commission's right to participate in the management of the Exposition. Basing its action upon this opinion, the commission's committee demanded of the executive committee that its right be recognized and that the commission be granted its part in the management of the Fair.

President W. H. Goode of the Fair Company deferred giving the Corporation's answer until the executive committee can consult its own lawyers. President Myers has named next Saturday as the last day the commission would wait for a reply.

It now remains for the Exposition Company to take another stand. If the directors of the corporation decide not to recede, the matter will unquestionably go into the courts.

OF CURRENT INTEREST.

A Vase Worth $20,000.

At Christie's auction rooms, London, the other day, a single Sevres vase, after a two-minute contest, was knocked down for 4,000 guineas, or about $20,000. The vase, 16¾ inches high, was painted by the faithful Dodin in 1763, nine years after he entered the Sevres factory, in which he was to toil for forty more years. The chief panel of the four which he painted on the vase is a pastoral in the manner of Lancret, and the greater portion of the body, base and cover is in the color of rich gros-bleu. The value put upon this single specimen gives an idea of that of the superb sets of Sevres vases in the Wallace collection, many of which were bought for small sums by the Marquis of Hertford. After the sales in the streets of Versailles there was a glut of Sevres, and it is well known that in many houses little care was taken of the beautiful ware. The fine examples of Windsor and Buckingham palace were purchased chiefly by George IV. With regard, again to the value of a set forming a perfect garniture, it may be stated that the Coventry vases, which fetched 10,000 guineas in 1874 (and temporarily declined to 8,000 guineas in the Goode sale, 1895) passed a few years ago into a well known collection at double this amount.

Australian Patent Law.

Australia has now a federal patent law and applications for patents hereafter will have to be filed and dealt with at the central patent office, Rialto building, Melbourne. The law is to a great extent based on the existing British system, with the notable addition that the official staff, before issuing a patent, must make an examination to ascertain whether the invention described has been previously patented or a patent applied for in any of the states composing the federation. Patents will be granted for fourteen years and will be subject mainly to the usual conditions of British and Australian patents, with the exception that if one claim is found by a court to be invalid it shall not affect the validity of any other claim or of the patent so far as it relates to any valid claim.

Chinese-Jewish Colony

There is said to be a Chinese-Jewish colony in the Yang-tse-Kiang valley in China. This colony has existed since 200 years before the Christian era. Its people have a synagogue in which they attend worship, extract the sinews from flesh before eating it, erect tablets to Moses and Abraham and are called by some "blue-capped Mohammedans," because of their blue headdress. Otherwise they are little different from other Chinese citizens, hold high offices in the land at times and because of Chinese tolerant principles have never been persecuted or oppressed.

Sacred Vulture Shot.

A specimen of the very rare "Pondicherry" or "sacred vulture" of India and Africa was shot recently in South Africa. Its measurements were: From tip to tip of wings, 106 inches; from beak to tip of tail, 42 inches. The "sacred vulture," which grows to an immense size, has its head bare, neck covered with folds of skin of a pinkish hue and tremendously powerful beak and claws. It is described as very self-assertive, driving off all other birds from their prey. It builds enormous nests of sticks and leaves and lays only one egg a season.

Engaged people should remember, that after marriage, many quarrels can be avoided by keeping their digestions in good condition with Electric Bitters. S. A. Brown of Bennettsville, S. POLICE MAKE A RAID ON WOMEN'S GAMBLING DEN

NEW YORK, May 18.—A gambling house for women has been raided in West Forty-third street by city detectives.

Gaming tables, roulette wheels, racing charts and telephones were confiscated and the only man found on the premises was arrested on charge of conducting the place.

A dozen or more handsomely garbed women were leaning excitedly over the tables when the police entered. With screams of alarm they ran to all parts of the house. Some escaped over the roof but the others were found in closets and in the coal cellar.

They pleaded hard for mercy and after taking their addresses and reading them a severe lecture the police allowed them to go.

A big crowd which had assembled on the street jeered the women as they passed out.

Apparently, the place was primarily a pool room but had been fitted up with gambling parpahernalia so the babitues might find diversion between the races.

JIMMY DUFFY
AT THE BUTCHER'S PICNIC.

It isn't often that Jimmy Duffy cuts into literature, but yesterday he inveigled Jack O'Keefe and Frank Kusick to the Butchers' picnic, and when he returned prepared the following account of the affair for THE TRIBUNE:

BY JIMMY DUFFY.

There was some racing out at the Butchers' picnic yesterday, and the sport was of the regular Belmont Park order. They have their Beldames and Reliables down there in New York, but they don't run any truer to form than the steers that bucked their way through the stretch at Oakland. Just think of it—a one-to-five shot winning a steer race. He or she—her name was Spot, won at 1 to 5, and that's no lie.

You ought to have seen the race. A moke from Butchertown that was a dead ringer for Snapper Garrison rode Spot. Well, if there was any other steer trying in the race I am not prepared to say, but this one called Spot breezed a quarter in 23 seconds, so it might be that the others—Butchertown Belle, Snoqualmie Ike, etc.—were not bred right.

Zeke Abrams, a genial hand-bookmaker from Frisco, was the main gazaba of the betting ring, and he paid off the bets on Spot without counting them or inquiring whether or not he was a ringer. The prices were so liberal on the race that the five books lost a total of $3.80.

The bookies were not getting a bit poor on this outing of the butchers, but a poor guy with a wooden leg, who was rigged up as a bronco buster, had an awful time with his finances. He was billed forty ways from the ace to give an exhibition of bronco busting and his bit was to come from the applauding populace—through the medium of the passing of a big hat.

Well, this bronco buster made all of Buffalo Bill's rough riders look like pikers as he cavorted through the infield on a crazy gray charger.

The 10,000 spectators were not acquainted with the amount of money that the bronco buster had collected, but he soon made it known. It was $4.20. The bronco buster confessed all this in a speech before the judges' stand and indignantly threw the money to the birds. The small boys scrambled for the coin, and when it was all cleaned up there was a panic in the betting ring. The bronco buster's money was bet on Dollie Dixie in the mule race, and her price came down from 3 to 2 to 3 to 5 in a jiffy.

Oh! that mule race. I never in all my life saw anything like it.

You know, it was this way: There was a report circulated that a mule had been brought down from Pleasanton that had stepped a mile up there last year as fast as Lou Dillon. Now, no one knew her name. Everybody headed for the paddock to try to locate the long-eared wonder from Pleasanton. Some wise guy said this mule's name was Dollie Dixie. The name was soon on everybody's lips and they were digging up fives and twenties from their jeans to place on the mysterious wonder.

Well, to make a long story short, it wasn't Dollie Dixie at all that came from Pleasanton. It was a muley called Rainier, and he was driven by a colored gentleman and won all the way.

"Talk about the Silver Dream Kid," said Mister Billy, as he read the story and handed it to a TRIBUNE reporter, "if that ain't going some, my dope's crooked. I'll buy."

And those who sauntered to the rail agreed that his dope was right.

BUTTE SPORTS WANT HORSE RACES

BUTTE, May 18.—If Butte sports want to pay $10,000 a year for the race track for a period of five years they may have racing in Butte. That is the status of the Montana racing situation today.

Within the past few days Butte horsemen, with Silas King as the leading spirit, got together and figured out the racing proposition and the possibility of holding a meeting in Butte. As a result they made a proposition to take over the Butte race track for a period of five years and to pay $35,000 as rent. The offer was rejected, although it was intimated that the track would be rented for $50,000, or $10,000 a year.

UNCERTAIN VENTURE.

That is the situation at the present time. Horsemen aver that in paying $7,000 a season they could do little better than make an even break. It is at best an uncertain business venture.

Memories of the last racing season are not reassuring; it seems to have been a game in which every one lost. The association lost money, the privilege buyers lost money, 75 per cent of the horsemen left town broke and the merchants who sold them groceries lost largely on the accounts.

HOW SOME STOOD.

Stanfield, Sink, Strobel and a few others made a little money, and some made an even break, but Charlie Chappel left with his horses in debt. Johnny Campbell left with his string mortgaged to H. L. Frank, and he has since been racing in Europe. Farrar went out with nothing, although he made money at the Golden Gate later and paid all his debts, as did Chappel. Tuberville left Flamaway, sister of Flamario, to pay a grocery bill.

READY FOR A MEETING.

All this argues nothing against a series of successful meetings for Butte, which is now hungrey for racing. At the time of this last meeting Butte was undergoing one of those spasmodic periods of economy incident to a nervousness in regard to the camp's future.

Butte is good today, and with the shutdown of gambling those local magnates who might be called gambling magnates are considering other investments.

CLARK WOULD HELP.

Will Clark's position in Montana racing is peculiar. He is willing to lend his support to the proposition, but does not care to be identified as a race horse man. It is said that whatever is agreed upon he will lend his financial support to. His string is now at Denver, where Sally Lund and Bon Voyage are making excellent showings.

RELIANCE CLUB TEAM WINS GAME

The Reliance indoor baseball team of Oakland played the Olympic Club team of San Francisco last evening in one of the tournament games.

The Reliance defeated the Olympics by a score of 14 to 5.

The feature of the game was the pitching of Reter, who made his first appearance on the firing line for the Reliance, striking out ten men and also getting a home run with two men on bases.

Beach Dean, the "jolly fellow," was on the initial sack and nothing could get through him.

Fred Krambs, better known as "Shorty," played a creditable game on short.

The batting of White, Ryder and Hauser was very good, the latter not being in the game for five years, but getting three hits out of five times up.

"ALANTIC" IS CHOICE OF EXPERTS

LONDON, May 18.—Interest in the transatlantic yacht race started from Sandy Hook Lightship to the Lizard for the cup offered by Emperor William is as yet largely confined to yachting circles in London, but reports of its progress from passing vessels are certain to arouse popular enthusiasm in this city.

Experts here are inclined to favor the changes of the Atlantic from a strictly expert viewpoint, while the Valhalla naturally is the favorite of the Englishmen who are wishing for heavy weather. Betting on the race has not yet commenced.

The committee of judges, composed of the German naval attache in London, Sir Edward Birkbeck, chairman of the Royal National Lifeboat Institution, and Rear Commodore C. L. F. Robinson of the New York Yacht Club, will be on board Lord Lonsdale's yacht alongside the Geramn cruiser Pfeil at the finish line.

CLEVELAND ON WOMEN'S CLUBS.

Grover Cleveland is doing his level best to show that ex-presidents cumber not the ground. He has recently made speeches on the essentials of Christianity, and now he comes forward with a final word on the woman's club question. He is against them, as you might have expected. He thinks they tend to neglect of the home and he is therefore in favor of their suppression.

It seems as though every man from the middle ages down to today who is against the advancement of women in education or influence has hung his argument on the convenient peg of the neglected home. It does not seem to make much difference to these male impersonators of all the wisdom that the women who go into the hard and conscientious work of the clubs go into it for the purpose of fitting themselves to more adequately run a home. The idea that a home consists simply of a man, some children and a cook has not been entirely suppressed. Grover Cleveland is in that state and he will perhaps remain there until he dies.—Minneapolis Journal.

AN IDLE WISH.

O, give me back the good old days;
I want the simple life,
The care-free times before we knew
Bacteria were rife.

We never boiled the crystal stream
The oaken bucket drew.
And if our mud pies reeked with germs,
At least we never knew.

But now we boil, and bake, and steam,
And disinfect and burn;
We wash and spray and shake and stir
And fume and scrape and churn.

We think it will prolong our days,
No nook or cranny shirk,
And just as every microbe flees,
We die of overwork.

—Puck.

Prosperity has ruined more men than adversity—but that kind of ruin is so much more delightful.

THE GIRL AND THE BEE

A Story of the Ignorance of a City Girl.

The city girl coming down to breakfast at the farm house and observing a plate of honey on the table, said: "Oh; I see you keep a bee."

That's about the way some people talk about the blight of baldness—just as if a bald head was something one got all at once instead of being the result of long depletion by an insidious germ which thrives upon the roots of the hair and succumbs to only one known remedy, Newbro's Herpicide.

Newbro's Herpicide is not a tonic any more than electricity is a fluid. It is an exterminator, pure and simple.

RELIANCE CLUB DIRECTORS PREPARE FOR BIG MINSTREL SHOW AND TRACK AND FIELD DAY.

The large cut is that of F. A. GRIFFINGS, director of the coming Reliance Club show, the small cut is that of FRANK FIGONE, a member of the club's quartet.

The Reliance Athletic Club is fortunate in having, for director of the musical end of its coming minstrel show, to be given in Macdonough theater, Friday evening, May 26, Fred A. Griffing, who, besides his musical talent and executive ability, is one of the most enthusiastic members that the club possesses, and is sure to overlook no opportunity to make the show a brilliant one and the success it gives promise of being.

Mr. Griffing is preparing a large chorus to sing at next week's affair, besides a long list of other musical numbers, included in which will be several selections by the Reliance Club male quartet, of which there are few superiors. Mr. Griffing is the second tenor.

Mr. Griffing is also attending to the securing of a number of other attractions outside of the musical line for the show, and under his supervision the program gives evidence of making a decided hit.

ATHLETIC MEET.

The directors of the club met last night and had under consideration the first annual handicap track and field meet given under the auspices of the club. The meet is to take place on Memorial Day at the Emeryville race track and the program contains a full list of events.

BICYCLE RACES.

There will be besides the track events bicycle and automobile races, the chief event of which will be a fifty-mile relay race between the Bay City Wheelmen and the Oakland Wheelmen for the championship of the Coast. The wheel events have been sanctioned by the C. A. C., and will be the only races about the bay on that day.

Among the prominent athletes of the Coast, who have entered are Norman Dole, Stanford, champion pole vaulter of the world; O. E. Hyde, of Stanford, who holds the Coast record on hammer throw; M. L. Edwards, the 100 and 220 yard sprinter, and A. A. Glarner, who will enter the long distance races.

SAN FRANCISCO TEAM ENTERED.

The San Francisco Y. M. C. A. team has put in an entry application and will put the first team in the outdoor field meet that has worn their colors for some years.

The referee of the day's events will be John Elliott of the Olympic Club of San Francisco, and G. James of the same club will be starter.

The directors at the meeting granted Frank Boek, the director of physical culture, a two months' leave of absence.

JIM JEFERIES AND BILLY DELANEY ARE HERE.

Mr. and Mrs. James J. Jeffries, accompanied by Billy Delaney, arrived at Point Richmond early this morning, and from there the champion and his wife went to San Francisco, while the veteran trainer came direct to his home in this city, 417 Nineteenth street, where he was interviewed by THE TRIBUNE.

"The announcement of Jeffries' retirement has of course been printed in the papers here," stated Delaney. "You know that unless we are called upon by the public to defend the title Jim positively will not again enter the ring—and a match must be in sight before the last day in June. If, on that date, there is no prospect for a fight Jim will retire for all time. This is positive.

"All the clubs and fight promoters throughout the country have been notified to that effect, so if there is any legitimate offer to be made it must come before the last day of June.

"Of course if Jeffries is to fight again it must be an engagement that will be well received by the public, and personally, under those conditions, I do not believe that he will be called upon to defend the championship."

After visiting friends about the bay for about a week Mr. and Mrs. Jeffries will go to the home of the former's parents in Los Angeles. The champion intends to build a home there for his wife and open an office in conjunction with his brother Jack for the promotion of their large mining interests located in Arizona, and which are said to be exceedingly promising.

Relative to his own plans, Delaney says that eight months on the road has been a strenuous life for him, hence it will be the simple life at home.

Having lived in this city for a score or more of years, Billy Delaney has a host of friends here as well as in the other cities visited by him during the time he has directed the career of pugilists. He is one of the most widely known men connected with ring affairs and now with the retirement of the champion will in all probability go into quiet home life—Billy Delaney, the maker of champions.

FRENCH SHOTS GET GOOD LEAD

PARIS, May 18.—Much satisfaction is expressed by those in this country interested in the sport over the Franco-American rifle and revolver match. The corrected score of the French team is revolver, 10,917; rifle, 9,910, an excess of 213 points over the American total.

POLICEMEN TO HOLD MATCH SHOOT

Sergeant Lynch and Policeman J. A. Walters are confident that they can demonstrate that they are better marksmen than Policemen H. B. Henderson and D. W. Swain, although they were defeated in the recent challenge match shot on the range across the estuary. They issued a second challenge and the shoot will come off tomorrow.

As in the former shoot, the penalty for defeat will be the price of a French dinner, "with trimmings," to the four contestants and to the officials supervising the contest.

Lynch and Walters have been putting in some time on the range, and as they were defeated at the recent shoot by the close score of 138 to 131, they think they will get even for the dinner they paid for.

Captain Petersen will act as judge and Policeman J. Brannan and Prison-keeper Flynn will be markers.

GAME GOES TO BERKELEY GIRLS

Eighteen bonnie lassies, representing the Berkeley High and the Lowell High schools, played basketball yesterday on the court at the Hebrew Young Men's Association, San Francisco. The lively maidens from the classic shades of the college town won the battle, which was the opening struggle of a series which has been arranged to settle the championship of the Girl's Annex of the Academic Athletic League. The score—5 to 1—indicates the closeness of the game.

OLDEST UMPIRE TO RETIRE SHERIDAN'S LAST SEASON

ST. LOUIS, May 18.—Jack Sheridan, who has been umpiring the home games at Sportsman's Park, will have officiated as an umpire twenty years with the completion of this season.

Sheridan says that this year is to be his last as a professional arbitrator.

A score of years in this capacity is enough for him, he says, and this fall he will go to the Pacific Coast.

Sheridan is the dean of them all in point of service. Bob Emslie has been in the game as an umpire for many years, but when Sheridan started out in 1885 Emslie was still playing ball.

TWENTY YEARS ENOUGH.

"Twenty years is long enough for any man to stand the gaff at this kind of business," said Sheridan.

"I have been at it longer than any of them and I am ready to retire at the close of this season. I have told Mr. Johnson, president of the league, that I will not be a candidate for umpire next year, and I think he understands that I want to get out of the harness, at least as a professional.

"My folks live out in California and there is where I am going to spend the rest of my days—in peace, I hope. I have saved a bit and with an occasional amateur game or something of that sort I think I can get along famously for a long time.

IT'S NO JOKE.

"Umpiring professional baseball is no joke for the best of them, and unless a man has a special knack for it he'd better keep out of the game. He must have a thorough knowledge of the kind the player has, he must have quick eyesight, quick decision and unlimited nerve to back up every word he utters, for once the ball players think they've got him going the umpire might as well retire. They'll walk all over him.

UMPIRES BORN, NOT MADE.

"Training has a lot to do with making a good umpire, just as a good ball player, but natural ability is as much necessary for the official as for the player. Without that you are a machine, and, while you may get along for a time, as long as everything breaks smoothly for you, the time will come when everything will look to be going against you and then your innate ability is what counts for getting you up and going right again.

"I don't know what made me start umpiring, but that I was such a rotten player I was kicked out. I wanted a job, applied for this and was given a trial.

"I never heard whether I made good or not, but I've kept right on up to the present time, and now I'm ready to retire."

COULDN'T THROW.

As a ball player Sheridan's career was a comparatively short one. He was a second baseman in the old Southern League and in every respect a first-class player except that he had no arm. It didn't take long for the managers to "get next" to this deficiency and he was shifted about from club to club in short order. His last engagement was with a club in the old New York State League.

As an umpire American League players say "there is none better in the land."

His peculiarity of style is in calling "strikes" and "balls." When the ball is over the plate Sheridan roars in his megaphone voice, "Strike one" or "Strike two" or "Strike three." If it does not come over the plate within the proper limit it goes "One," "Two," "Three" or "Four." Remember, unless he says the word strike it is a ball.

AMATEUR BASEBALL

Send in the makeup of your team. Also your challenges, games played and scheduled and any other information which might be of interest to amateur baseball fans. It will be prominently and promptly published on this page. Address the SPORTING EDITOR, OAKLAND TRIBUNE, Oakland, Calif. The W. Smiths defeated the Domestic Laundry team last Sunday by the score of 20 to 10. The Smiths showed a decided improvement over their first game, especially in batting, making eight runs in the first inning. "Kidney" Palmer, the crack local player, was substituted in the second inning, but fared no better.

The Smiths would like to hear from the Ye Libertys.

The line-up is: Lavel, catcher; Jays, pitcher; White, first base; Newman, second base; Lee, third base; King, shortstop; Ingals, left field; Simpson, center field.

Address all challenges to H. Simpson, 961 Eighth street.

On the Sixteenth and Linden street diamond the Monarchs defeated the Young Cutters by a score of 12 to 8. The Monarchs' line-up is as follows: Geo. Hjelte, catcher; Ralph Webber, pitcher and short; Rob Harvey, pitcher and short; Safford Hjelte, first base; Ralph Hanson, second base; Eddie Holms, third base; Eddie Diamond, left field; Sigfred Hedberg, center field; Roy Davis, right field; Percival Ward, substitute.

Address all challenges under twelve years of age to George Hjelte, 1164 Twelfth street, Oakland, Cal.

In a close and interesting game of baseball, the Nationals defeated the Diamonds Sunday by a score of 4 to 3. The features of the game were the home-run made by Tracy and pitching of Bob Bankhead.

The Nationals are a clever lot of ball players and are out to play any team under sixteen years of age, country teams preferred.

Address D. H. Lewin, 804 Castro street, for challenges. The line-up: J. Basso, catcher; R. Bankhead, pitcher; F. Zelich, first base; M. Jochner, second base; O. Conger, shortstop; F. Matthews, third base; M. Bankhead, left field; G. Baird, center field; Rhodna, right field.

THE TRIBUNES defeated the Stars by the score of 14 to 5. The features of the game was the batting of THE TRIBUNES. Sexton and Hien each knocked a three-bagger. With a man on third, Blodgett knocked a home-run. The batteries for THE TRIBUNES were Pease and Blodgett, for the Stars, O'Hara and Bluel.

Pease discontinue sending challenges to THE TRIBUNES, because they have formed a league.

THE EYEGLASS'S SURPRISING ORIGIN

"The eyeglass, or monocle, is now and then to be seen in America," said an oculist. "In England and France and Germany it is often seen.

"The birthplace of the eyeglass was England. There everybody, there even woman, is apt as not to wear it. I know two Englishwomen who wear the eyeglass—I don't know why—for there is nothing on earth uglier than the silly contrivance.

"Yet the eyeglass, in its origin, was both useful and necessary. I'll tell you what its origin was. You'll be surprised.

"At the beginning of the nineteenth century—about the year 1802—a British army order was issued to the effect that no officer should in the future wear eyeglasses or spectacle. These instruments, it was claimed, gave to the face an unmilitary look. Furthermore, they were a confession of defective sight, and officers with defective sight were not wanted in the army.

"Well, here was a pretty mess. There was a multitude of officers wearing glasses. Would these men all have to quit the service now? It looked like it.

"Then a genius arose. He invented the monocle, or single glass. And the near-sighted officers, abandoning their prescribed double glasses, turned to the monocle gratefully. You see, it allowed them to help their poor sight without breaking the new army rule, and furthermore, it took away the mild, studious look that their glasses had given them. They had now, with monocles screwed in their eyes, a strange, fierce, martial look.

"That is the monocle's origin. And the monocle is still thought to give a look of ferocity, of virile savagery. Hence its use by Englishmen, Frenchmen, Germans, and a few Americans.

"Of course, it is bad for the eyes."

ARE OUT FOR NEW RAILWAY

CONTRA COSTA RESIDENTS TO INCORPORATE ELECTRIC LINE OF THEIR OWN.

POINT RICHMOND, May. 18.—At Walnut Creek Saturday there was a meeting of the Development Association, at which about twenty were present. The subject for discussion was the proposed electric railroad and it was stated that about $40,000 had been subscribed and it was thought after the valley had been thoroughly canvassed that the total amount would be increased to $100,000. The subscribers have decided to incorporate and call the company the "Oakland & Contra Costa Interurban Ry." Capital stock is to be $500,000 paid up. As the directors appear the names of A. Rudgear, John F. Boyd and Joseph Napthaly of San Francisco, A. W. Maltby, Frank Gavin, G. M. Westcott and E. J. Randall of Concord and J. M. Stow of Walnut Creek and R. O. Baldwin of Danville were selected. These men were instructed to go ahead and proceed with the incorporation of the new railroad.

From statements made by several of the subscribers of the road it seems to be the intention of the corporation to acquire the Frick franchise, and from what can be learned it is believed the company already has a bond on it.

STOPPED BY WARSHIPS.

The Standard Oil steamer Dakotah, Captain Ross, arrived in port yesterday after a voyage of twenty-three days from Shanghai via Moji, being eighteen and one-half days out of Moji. The Dakotah arrived in ballast, and after anchoring in the stream moved up to the P. C. C. wharf on the Richmond water front, where she will load oil for the Orient, departing within a week. The voyage was pleasant and in the main uneventful. However, at 5 o'clock in the afternoon of April 23, in latitude 32 degrees north, longitude 126 degrees east, the steamer was stopped by a Japanese cruiser and a torpedo boat, while bound for Shanghai to Moji. One Japanese officer boarded the vessel and inspected her papers. He then left, but again at 6 o'clock the next morning, the same two war ships spoke the Dakotah. According to the officers of the Dakotah, the Russian Baltic fleet is believed in the Orient to be cruising about somewhere between Singapore and Hongkong. No Russian vessels were sighted by the Dakotah.

BRIEFLETS.

The ladies of Eschscholtzia division, G. I. A. to B. L. E., are very busy with their preparations for their grand ball to be given on Thursday evening at Maple Hall. These ladies know how to do things and they are the busiest lot of women in California today. The banquet is being prepared and all arrangements made for a grand time. Railroad people from Fresno and along the line will be here.

Pearl Frisble received his discharge at the hands of Judge W. S. Wells yesterday and is now a free man. Ed Hall, the man he shot some weeks ago, recovered and took a quiet sneak, hence there was no one to prosecute. So at the request of Attorney Charles Rickabaugh, counsel for Frisble, District Attorney H. V. Alvarado moved for a dismissal of the charge.

Charles Concannon and Miss Olive Parks were married in Martinez yesterday by Rev. Stevenson, pastor of the Congregational Church at the county seat. This was not so much of a surprise as it was sudden. Both bride and groom are well known young people of Richmond and their host of friends wish them all appropriate joys that are coming to those who enter that sort of partnership.

The Mendelssohn Club will meet tomorrow afternoon with Miss Anna Tully at her home in Berkeley. The ladies will take the 9 o'clock a. m. electric car at the foot of Washington avenue and journey to the University city in a body. They will take along lunch baskets and enjoy a picnic dinner on the college grounds. All members are expected to join the party.

Charles Moore, the expressman who had a head-end collision with a switch engine some ten days ago, is able to be about again, though he has not yet recovered his usual good health. Mr. Moore had a close call. His wagon was damaged beyond repair.

There was a sure-thing artist in town last Sunday. He set up in business out at the Southern Pacific depot and succeeded in cleaning up several hundred dollars from the assembled suckers.

Santa Fe employes are happy today. The big shining gold pieces for the monthly wages have arrived and the merchant's till is tickling and tinkling merrily as a result.

PERSONAL MENTION.

R. P. Taylor, a young druggist from Oakland, has accepted a position with the Lang Pharmacy. He has moved his family here and they are occupying rooms in the McCrea house on Nicholl avenue.

Frank Scholes went to Sacramento Saturday. The many friends of Mrs. J. F. Scholes will be glad to learn that she was able to accompany her son home yesterday.

Frank L. Higgins, a shop foreman for the Santa Fe, left last night for New York, Michigan and Niagara Falls, where he will visit relatives. His wife and children will accompany him on his vacation trip, which will extend over a period of thirty days.

Dr. H. B. Heacock and Mrs. Heacock were here from San Francisco yesterday and spent the day visiting their old friends, Rev. and Mrs. Calfee.

M. W. Truitt is a late arrival from Odessa, Mo., and will make Richmond his future home. He is a nephew of Mrs. C. M. Arnold.

Mrs. S. Pritchard and daughter, Miss Maude, will attend the commencement exercises of the University of the Pacific at San Jose this week. They will leave tomorrow in company with Mrs. Calfee and Czar.

VACATION TOURS.

The excursion parties which have been run during the past few years from California to Europe, known as the Baker Tours, have been so successful that they will be operated during the coming summer. The tour will include England, touching the Irish coast, Scotland, France, Switzerland, Italy Austria, Germany (the Rhine), Belgium; also a section of Norway, Sweden, Denmark or Russia. These instructive tours are in charge of able, reliable and experienced managers and are an education in themselves. The rates are very low and the service excellent. The route in both directions will be over the Southern Pacific. Mr. Frank Baker of New York will meet the party at various points en route, and lectures will be given, increasing the value and interest of the tour. Special care of ladies without escort. For further particulars, pamphlets, etc., address any agent, Southern Pacific Co., or Frank Baker, Ocean Park, California.

Now, therefore, the Board of Supervisors of the County of Alameda do ordain as follows:

Section 1. The right, franchise and privilege is hereby granted unto the Oakland Traction Consolidated, a corporation, its successors and assigns, to lay down, construct, maintain and operate a street railroad with all necessary and convenient stations, side tracks, switches, connections and appliances, along and upon the following described route in said County of Alameda, State of California, to wit:

Commencing in Oakland Township at the intersection of College avenue, also known as County Road No. 651, with the northern boundary line of the city of Oakland, and running thence northerly along and upon said College avenue to and forming a junction with the tracks of the Oakland Traction Consolidated at the junction of said College avenue with Alcatraz avenue, also known as County Road No. 1816;

Said Oakland Traction Consolidated, its successors and assigns, is hereby granted and given the abovementioned right, franchise and privilege to lay down, construct, maintain and operate said street railroad for all purposes to which street railroads are usually devoted, including the right to carry passengers and freight thereon for hire, for the term of fifty (50) years from and after the date when this ordinance takes effect;

Section 3. Said street railroad shall consist of a single or double track, and the rails shall be laid in a good and substantial and workmanlike manner, and said street railroad shall be constructed in such a manner as to present the least possible obstruction and inconvenience to the traveling public, and the cars run thereon shall be of the most approved pattern for comfort, convenience and safety;

No percentage shall be paid for the first five (5) years succeeding the date of the franchise, but thereafter such percentage shall be payable annually; and in the event said payment is not made said franchise shall be forfeited;

Section 3. Said street railroad shall consist of a single or double track, and the rails shall be laid in a good and substantial and workmanlike manner, and said street railroad shall be constructed in such a manner as to present the least possible obstruction and inconvenience to the traveling public, and the cars run thereon shall be of the most approved pattern for comfort, convenience and safety;

Section 4. Said street railroad shall be operated by electricity or such other improved mode of operation as may be authorized by law, except steam locomotives;

Section 5. The tracks, side-tracks and switches shall not be more than five feet wide within the rails and must have a space between them sufficient to allow the cars to pass each other freely, and when permanently laid shall be as nearly as possible in the middle of the above named public highways, and the portion or portions of said public highways to be occupied by said tracks, side-tracks and switches shall not exceed twenty-two (22) feet in width at any point of the aforesaid route. Section 6. Single fares on said street railroad shall be as now provided by law;

Section 7. Said Oakland Traction Consolidated, its successors or assigns, must plank, pave or macadamize, or otherwise improve, with the same kind of material with which other portions of the public highways adjacent are improved, the entire length of the said public highways used by said track or tracks between the rails and for two feet on each side thereof, and also between the tracks where there is more than one track, and keep the same constantly in repair, flush with said public highways and with good crossings, and said Oakland Traction Consolidated, its successors or assigns, after five (5) days' notice to repair or improve the entire length of said public highways used by said railroad, or any portion thereof, as above provided, shall forfeit to the said County of Alameda ten dollars per day for each and every day that said Oakland Traction Consolidated, or its successors or assigns, shall neglect to comply with the aforesaid condition;

Section 8. Work to construct said street railroad must be commenced within four (4) months from the date of the taking effect of this ordinance, and the same must be completed within one (1) year thereafter over the entire route unless the uncompleted portion thereof be abandoned with the consent and approval of said Board of Supervisors;

Section 9. Said Oakland Traction Consolidated, its successors or assigns, shall lay the tracks for said street railroad along and upon said public highways under the direction of said Board of Supervisors and the County Surveyor of said County of Alameda, and no change of any public highway over which said street railroad is to run shall be made in any way except by and with the consent and approval of said Board of Supervisors;

Section 10. In case said street railroad shall be operated by electricity, the poles used upon said public highways in the construction thereof shall be of the most approved pattern in use for electrical railroads and of wood or iron, and all wires used in connection with the exercise of said franchise, except underground wires, shall be of sufficient height and elevation above the ground so as to avoid obstruction to the ordinary use of said public highways;

Section 11. Cars must be operated over said street railroad in each direction at least once every hour between the hours of six (6) o'clock A. M. and eleven (11) o'clock P. M. of each day;

Section 12. All mail carriers in the employ of the United States Government, at all times while engaged in the actual discharge of duty, shall be permitted and allowed to ride on the cars of said street railroad without paying any sum of money whatever for fare or otherwise;

Section 13. Said Oakland Traction Consolidated, its successors or assigns, must, during the life of the franchise hereby granted, pay to the County of Alameda two per cent (2%) of the gross annual receipts of said Oakland Traction Consolidated, its successors or assigns, arising from the use, operation or possession of such franchise. No percentage shall be paid for the first five (5) years succeeding the date of the franchise, but thereafter such percentage shall be payable annually; and in the event said payment is not made said franchise shall be forfeited;

Section 14. This ordinance shall take effect and be in force fifteen (15) days after its passage, upon the publication thereof in accordance with law being made before the expiration of the said fifteen days.

NEWS FROM SUBURBAN TOWNS

DEALERS IN DIRT FEAST AT BANQUET

Real Estate Exchange of Berkeley Has Enjoyable Affair—Plans Discussed.

BERKELEY, May 18.—The real estate men of Berkeley, under the leadership of President Ferrier of the Real Estate Exchange, gave a banquet last night in Bruel's restaurant, West Berkeley. After partaking of an elaborate menu the real estate men devoted several hours to discussing matters of interest to Berkeley.

The first convention of California Real Estate Associations, which is to be held in Los Angeles from May 25 until May 28, was called to the attention of the Exchange. After a lengthy discussion of the coming convention and the necessity of Berkeley being represented at the gathering, President Ferrier asked all who would attend the convention to stand, and the following responded: W. Woolsey, S. S. Quackenbush, C. C. Juster, P. W. Albee, Francis Ferrier, H. D. Irwin, J. Hedemark and William Moran.

In order to advertise Berkeley at the convention those who are to attend were appointed a committee to secure literature pertaining to the college town, which they will distribute in Los Angeles.

The Exchange also discussed the matter of having weeds removed from sidewalks and vacant lots. Various phases of the question were taken up, but the only solution suggested was to induce the Town Trustees to force owners to clear the weeds from their property. At the next meeting of the Exchange further action in this matter will be taken.

During the evening E. Newton was elected a member of the organization, which now includes twenty-five members.

FOUND GUILTY OF BATTERY

ALAMEDA RESIDENT FINED $10 BY SAN LEANDRO JUSTICE OF PEACE.

SAN LEANDRO, May 18.—For giving way to a fit of temper Sunday, J. McLaughlin of Alameda was fined $10 Tuesday evening by Recorder Black of this place. The complaint of battery, brought by H. Opennaur, was sustained by the evidence of six witnesses.

McLaughlin and his wife were riding last Sunday from San Lorenzo into this town on a tandem motor-bike. In his way stood Opennaur, ready to mount his bicycle. As McLaughlin and his wife were coming at a good rate of speed it was some inconvenience to turn out for the pedestrian. The necessity for doing this enraged McLaughlin, and he leaned over and struck Opennaur with his fist when passing. The motion caused him to lose his balance and he and his wife piled up in the dust of the road.

The fallen man picked himself up and went for the cause of his troubles with both hands. Unable to defend himself, being a much smaller man, Opennaur had to take the blows. Marshal Geisenhoffer arrived while the disagreement was in progress and took the men to the Courthouse, where Opennaur entered a complaint of battery against his assailant.

WINS W. C. T. U. MEDAL.

In a close contest for a medal for oratory Mrs. H. E. West gained the prize Tuesday evening. The competition was under the auspices of the W. C. T. U., and the subject of all the recitations was "Rum."

Mrs. West's recitation was entitled "What Is That to You?" All the other speakers did fine work and received hearty applause. The songs by the children's chorus were very well rendered. Miss Rubena Jess, the leader of the chorus, favored with a vocal solo that was one of the most pleasing features of the evening.

The program was as follows: Music, children's chorus; remarks, Mrs. S. M. M. Woodman; music, duet, Bennie and Jessie Silva; recitation, Mrs. Harding; music, solo, M. Buck; recitation, Mrs. West; recitation, Mrs. Yeager; music, solo, Mrs. McWorthy; recitation, Mrs. Lottie Lynch; recitation, Mrs. Johnson; music, children's chorus; recitation, Mrs. Driver; music, solo, Mr. Reid; presentation of medal, Mrs. Anderson; music, "America," audience; benediction.

LODGE DOINGS.

Fully fifty members of the local branch of the Brotherhood of American Yeomen left for Watsonville yesterday morning to attend the great convention there. They went on a special car and had a jolly time all the way. The twenty young women of the degree team were there with Captain J. W. Bulen, who is to put them through the drill at the meetings. The degree teams from several other lodges will compete with San Leandro for a handsome banner the team here won last year for excellence at the drill. The visitors are expected to return tomorrow and Saturday.

The Drum Corps of the Piedmont Parlor of Native Sons made a visit to Estudillo Parlor of San Leandro Tuesday evening and received a cordial welcome. A supper was served and the visitors played several selections on their instruments.

Antone Lucio was pleasantly surprised Tuesday evening to receive a visit from the members of Company No. 69, U. R. K. P., at his home on Haywards avenue. The visitors brought refreshments with them and provided a pleasant luncheon. Whist was played for an hour afterward. Bulen's orchestra played several times.

The surprise party was given as a send-off to the host, who leaves tomorrow for a trip to his old home in the Azores Islands.

LOCAL ITEMS.

An entertainment is being prepared by the sisters at St. Mary's Convent, to be given on June 6 at St. Joseph's Hall. The children who attend the Catholic school are to give a musical and literary program. The details are not complete yet.

The engagement of John T. De Silva and Miss Annie Davilla has recently been announced. The wedding is expected to take place in about two weeks.

The differences between the proprietors of the Sportsman saloon on San Leandro avenue have been settled. Frank Frates has bought out his former partner, J. T. Martin. It is expected that there will be little difficulty in getting the license for the saloon, as the Trustees are apparently in favor of amending the present ordinance that allows only sixteen bars in the town.

Mrs. U. G. Hunt was a visitor of Miss Belinda Roberts Tuesday.

J. Knaugh returned Tuesday from Petaluma.

POSTPONE BOARD MEETING

AWAITING REPORT RELATIVE TO NUMBERING BUILDINGS IN FRUITVALE.

FRUITVALE, May 18.—It has been decided to defer the meeting of the Board of Trade here for a week or two, when F. H. Howe is expected to have something definite to report about the house numbering and putting up signs at the street corners. He has been employed by the board to gather subscriptions and attend to getting a large number of assorted figures for the property-owners to place on their residences.

The little booklets are almost ready for distribution. Of the 10,000 copies to be prepared the board will give away 1000 to the public, sell 1000 to the real estate dealers at 8 cents apiece and send the remainder to the East for free distribution to prospective emigrants. The entire edition is to be in readiness before the end of this week.

In each booklet is a small but accurate map of Fruitvale and its environs. There are twelve colored plates of scenes of interest in the town, such as handsome residences, grounds, school buildings and streets. No names will be given, as it is the purpose to advertise Fruitvale and not any particular property in the town.

SOCIAL CHAT FROM BERKELEY

BERKELEY, May 18.—Mr. and Mrs. C. E. Dunscomb leave this evening for San Bernardino for a visit with Mrs. Dunscomb's parents, Judge and Mrs. C. N. Damron.

S. S. Boynton, editor and publisher of the Oroville Register, is in the city attending the commencement exercises. His daughter, Miss Leila B. Boynton, graduates from the college of letters.

Rev. Hodgkin, who was ordained by Bishop Nichols in St. Mark's Episcopal Church last Sunday, left yesterday afternoon for Fresno, his former home, for a month's vacation. Rev. Hodgkin intends to make the trip to the Yosemite before his return.

JOLLY LITTLE GARDEN PARTY

BERKELEY, May 18.—Invitations have been issued by Miss Head for a garden party to be given on Friday afternoon, May 19, at Channing way, in Berkeley. Miss Head's guests on this occasion will include the parents and relatives of her different pupils, besides many outsiders. These delightful affairs, which are given each year in place of the conventional exercises, are always very jolly and pretty. Maypole dances, a bottle of roses and several other original ideas being carried out to make the affair an attractive one.

BUSINESS BUILDING

Another Handsome Structure For University Town.

BERKELEY, May 18.—E. M. Norton and George T. Alexander of Healdsburg have purchased through M. P. W. Albee the vacant lot next to the Berkeley Electric Lighting Company's building on Shattuck avenue, between Allston way and Kittredge street, and will erect on it a modern two-story brick building. The structure will have two large stores on the first floor and offices on the second. A deep basement will be conducted for storage purposes. It will be 110 feet in length, with 48 feet frontage. Kidder & McCullough have been awarded the contract for the construction of the building, the cost being in the neighborhood of $20,000.

New residences are going up in all parts of Berkeley. Contractor W. G. Britt has just started the construction of two handsome residences. One is a six-room house on Milvia street, near Parker, and the other is a modern eleven-room home on Regent street, near Stuart, for J. M. Allen of San Jose.

George T. Little is to build a two-story building, to cost $3,240, on College avenue, near Dwight way, for Fred and Amy M. Corkill. A two-story frame building to contain flats is to be erected for Sofia Nyman at a cost of $4,480 on the corner of Fairview and Ellis streets by Pearson & Olsen. Another flat building is to be built by A. H. Broad for C. Frick on the corner of Addison street and McKinley avenue, at a cost of $3,880.

BERKELEY, May 18.—Liddell creek grant at Santa Cruz will again be the rendezvous of the summer school of civil engineering of the University of California. The advance guard of the Coast Geodetic Survey, the summer school of civil engineering of the University of California, has gone from Berkeley, B. F. Sanford being in charge.

The other members were E. H. Mathis, C. Dimmler, N. Frater, S. C. Mendenhall, H. B. Foster, T. Watson, W. C. Rhinehart, O. N. Friendly, O. A. Kraft and H. W. Stanton.

Fully 300 students will go into camp and they will come in two divisions. The first division, 150 strong, in charge of Professor Prouty, will arrive at the camp this afternoon.

LAST CHAPTER OF A FAILURE

BERKELEY, May 18.—The furniture, carpets, curtains and all other furnishings of the La Paloma apartment house, formerly conducted by the Moragas, which failed a few weeks ago, were sold at public auction today by J. Munro, the well-known Oakland auctioneer. Mr. Munro took charge of the goods for the Brilliantine Company, who had originally sold them to the apartment house on the installment plan.

PIONEER GIVES UP HIS BUSINESS

BERKELEY, May 18.—Joseph McClain, a pioneer resident of this city and one of the pioneer grocers, is to retire from active business on account of failing health, his son, Frank McClain, succeeding him in the management.

Mr. McClain has seen the growth of Berkeley from a little village to the prosperous city of today. Twenty-six years ago McClain opened a small store on Shattuck avenue where Greenhood's store is now located. At that time there were but a few hundred inhabitants of Berkeley and these were widely scattered, while the present business portion of Berkeley was a big orchard.

Despite these conditions Mr. McClain declared again and again that Berkeley had a big future before it, and his predictions have come true.

EXPECT BATTLE IN NEAR FUTURE

TOKIO, May 18 (noon).—The reported departure of Vice-Admiral Rojestvensky from Hon-koe Bay northward renews the popular expectation of a naval action in the near future. It is believed that Admiral Rojestvensky, having filled his coal bunkers and resupplied his fleet, is now in a condition to assume the aggressive if he so desires. It is the opinion of some that Rojestvensky may make a demonstration in the vicinity of the islands of Formosa and the Pescadores and then enter the Pacific en route to Vladivostok. This, however, is purely speculative. Everything depends upon Admiral Rojestvensky's plans, which, while as yet undisclosed, may include an extended stay in southern waters.

It is reported that the contractors who supplied the coal and provisions to Admiral Rojestvensky in Indo-China waters approached the French colonial officials prior to the arrival of the Russian fleet and arranged a rendezvous at Kamranh and Hon-koe bays. Confirmation of this report is, however, not obtainable.

The total appropriations for the last session of the Fifty-eighth Congress for 1906 were an increase of $39,012,259 over the previous session of that Congress for 1905.

'VARSITY BOYS SING

Prominent College Men in Opera on Stage in San Francisco.

BERKELEY, May 18.—A large number of prominent University singers and actors are taking part in Mme. Inez Carrusi's original opera, "Richard and the Crusaders," at the California Theater in San Francisco. A farewell song for male voices, a quintet in the second act, without accompaniment, and a falconer's song are exceptionally fine. Clinton Morse sang the latter and won an enthusiastic recall. Walter De Leon, in the travesty part of Richard, the lion-hearted, sang a drinking song, which was also well received.

Edgar Stern sang the role of the Troubadour. M. G. Jeffries and Frank L. Argall, with Morse, took the parts of three villains, who played a very important part in the development of the plot. R. H. Merrill sang the Herald's part.

Of the cast Morse, Stern, Jeffries, De Leon, Argall and Merrill are all members of Berkeley's famous singing organization, the De Koven Club. Other members of the club also assisted in the chorus.

RARE BOOKS FOR THE ALAMEDA LIBRARY.

Congressman Knowland Presents History of the Declaration of Independence.

ALAMEDA, May 18.—Two important volumes presented by Congressman Joseph R. Knowland are among recent accessions to the Alameda Free Public Library. One, a history of the Declaration of Independence, is a rare volume. But three copies were presented to each Congressman, so that this city is fortunate in securing one. The volume is by William H. Michaels. The following is an extract from the preface:

"This volume was prepared primarily as an aid to those in charge of the exhibit of the Department of State at expositions in explaining that part of the exhibit relating to the Declaration of Independence. The panel of the exhibit devoted to this interesting document contains a likeness of Jefferson, who wrote the immortal document, a picture of the house in which he wrote it, the desk on which he wrote it, and portraits of all the signers. All the illustrations are given in this book."

The other interesting volume donated to the Free Library by Congressman Knowland is "The Life and Morals of Jesus of Nazareth," by Thomas Jefferson, better known as "Jefferson's Bible." The original copy, now in the National Museum collection, was obtained by purchase. The work is described as follows by a former Librarian of Congress, Mr. Ainsworth R. Spofford:

"The Morals and Life of Jesus of Nazareth, extracted textually from the Gospels in Greek, Latin, French and English. Title and very full index in his own hand. Texts were cut by him out of printed copies of Greek, Latin, French and English Testaments and posted in this book of blank pages, which was handsomely bound in red morocco, ornamented in gilt, and lilted on the back in gilt letters, 'The Morals of Jesus.'

"His original idea was to have the life and teachings of the Saviour, told in similar excerpts, prepared for the Indians, thinking this simple form would suit them better. But abandoning this, the formal execution of his plan took the shape above described, which was for his individual use. He used the four languages that he might have the texts in them side by side, convenient for comparison. In the book he pasted a map of the ancient world and the Holy Land, with which he studied the New Testament."

NEW IMPROVEMENT CLUB.

ALAMEDA, May 18.—A new improvement organization has been formed among the residents of the north side of the city, known as the North Alameda Improvement Club. Brower secretary pro tem. Permanent officers of the club are to be chosen at a meeting to be held next Tuesday night at 2116 Eagle avenue. The need of improving Eagle avenue between Chestnut and Willow streets was discussed.

HAYWARDS CANNERY OPENS

Many People Are Given Employment Today.

HAYWARDS, May 18.—Though it was the intention of the proprietors of the Hunt cannery here to commence work at packing fruit on May 27, it has been decided to commence operations today. The cannery was opened and a number of workers engaged. The cherry season has begun and the plant will be in full blast within a few days.

On account of the heavy and long continued rains this spring the cherries will be very scarce. The apricot crop has not suffered much and will be as large as usual.

NOTES OF INTEREST.

A man giving the name of James Hayes, who seems to be slightly demented from an indulgence of too much liquor, was taken to Oakland yesterday by Deputy Constable John Pann. The unfortunate has been detained in Haywards since Friday. He was arrested at Mt. Eden, where he insisted on staying at the home of Mrs. Ikler.

Haywards will soon have another fraternal order, the Eagles. An aerie will be instituted here on the evening of July 3, on which occasion it is predicted 2000 Eagles will be present from different parts of the county and State. A trainload will come down from Sacramento way. Over 100 have already signed the membership roll.

The promoters of the organization are: George Baxley, R. Reid, Dr. Reynolds, Dr. Tormey, Henry Kurz, A. E. May, John W. McCoy, Peter Hansen, Al Hobler and Charles Ruppricht.

A preliminary meeting will be held in a few days by those interested to plan for the big event.

E. S. DePuy of Sacramento is spending a few days at the home of his brother, Dr. DePuy of Haywards. He is recuperating from a slight touch of malaria and will be here several days yet.
